The Cardinal's Hat Mary Hollingsworth,2006-05-02 A riveting portrait of the day to day life of a wealthy worldly Renaissance prince as he pursues power and influence in the Catholic church USA Today The second son of Alfonso d Este and Lucretia Borgia the Duke and Duchess of Ferrara Ippolito d Este was made the archbishop of Milan at the age of nine But from the time of his father s death in 1534 he set his ambitions on acquiring the powerful and coveted cardinal s hat But one did not become a sixteenth century prince of the church through piety and good works Ippolito had a taste for gambling and women He enjoyed hunting in the Loir valley and pursued his ambition with money schmoozing and the dark arts of politics Working with Ippolito s letters and ledgers recently uncovered in an archive in Modena Italy Mary Hollingsworth has pieced together a fascinating and undeniably titillating tale of this Renaissance cardinal and his road to power and wealth in sixteenth century Europe The ledgers document every aspect of Ippolito s comings goings purchases and debts Out of these finely detailed records Hollingsworth brings to life not only Ippolito but his world In this brilliant piece of historical detective work and narrative reconstruction the most unlikely bits and pieces a scrap of velvet a stray barrel of wine can be made to tell stories that resonate far beyond the neat columns of a well kept account book The Guardian Joseph Alois Schumpeter Jürgen G. Backhaus,2006-04-11 Joseph Alois Schumpeter is arguably the most important economist of the 20th century Most readers are familiar with his Theory of Economic Development and his classic Capitalism Socialism and Democracy Less well known are his seminal works published before he left Europe for the United States in 1942 In particular for the first time the missing Chapter Seven of his Theory of Economic Development has been published in this volume It tries to put Economic Development into the broader context of culture law and policy Many of his earlier writings display a similar integrative approach and are therefore often treated as sociological writings As Capitalism Socialism and Democracy shows he did not dissociate the different social sciences in his own mind but rather strove to keep the unity of the social sciences

Entrepreneurship style and vision are the unifying concepts of his work

History: Volume 14, 14 Joel T. Rosenthal, Paul E. Szarmach, 2019-12-30

Pac, 2022-03-07 This book analyses the role of women in the Polish Piast dynasty from c 965 to c 1144 It discusses gender expectations and the literary topoi employed to describe rulers wives and daughters as well as showing their importance in religious donations the creation of dynastic memory and naming patterns as well as examining Piast women's involvement in female monasticism Pac takes a comparative approach to these themes analysing Polish sources alongside sources from other areas of early and high medieval Europe

Beyond Charity Carter Lindberg, 1993-07-01 The common stereotype is that the Reformers separated public and private morality and were indifferent to the ethical import of social structures and institutions *Beyond Charity* calls this understanding into question by providing an analysis of the historical situation and translations of primary documents The medieval point of view formed by piety of achievement idealized poverty either as voluntary renunciation or as almsgiving In either case the material effects on actual poverty were slight and the religious endorsement of poverty precluded urban efforts to address this growing problem The Reformers impelled by their theology developed and passed new legislative structures for addressing social welfare needs The key to their undertakings was the conviction that social ethics is the continuation of community worship In the first half this book sets forth the medieval context details Luther's critique of the profit economy of his day and analyzes the actual social welfare programs that issued from his theology The second half provides translations of selected legislative programs from the church orders of the Reformation

Warfare and Society in the Barbarian West 450-900 Guy Halsall, 2008-01-28 Guy Halsall relates warfare to many aspects of medieval life economy society and politics This book recovers its distinctiveness looking at warfare in a rounded context in the British Isles and Western Europe between the end of the Roman Empire and the break up of the Carolingian Empire Examining the raising and organization of early medieval armies and looks at the conduct of campaigns the survey also includes a study of the equipment of warriors and the horrific experience of battle as well as an analysis of medieval fortifications and siege warfare *Warfare and Society in the Barbarian West* uses historical and archaeological evidence in a rigorous and sophisticated fashion It stresses regional variations but also places Anglo Saxon England in the mainstream of the military developments in this era and in the process provides an outstanding resource for students of all levels

Ancient and Medieval Economic Ideas and Concepts of Social Justice Todd Lowry, Barry Gordon, 2023-03-20 On March 17 2015 Brill was informed that the article by Francisco Gomez Camacho S J *Later Scholastics Spanish Economic Thought in the XVIth and XVIIth Centuries in Ancient and Medieval Economic Ideas and Concepts of Social Justice* ed S Todd Lowry and Barry Gordon Leiden Brill 1998 pp 503 561 suffers from serious citation problems and that in some cases the original sources are never mentioned at all It goes without saying that Brill strongly disapproves of such practices which represent a serious breach of publication integrity Brill condemns any violation of the authors rights and the copyrights of

The Origins of the Platonic Academy of Florence Arthur M. Field, 2014-07-14 Founded by Cosimo de Medici in the early 1460s the Platonic Academy shaped the literary and artistic culture of Florence in the later Renaissance and influenced science religion art and literature throughout Europe in the early modern period This major study of the Academy's beginnings presents a fresh view of the intellectual and cultural life of Florence from the Peace of Lodi of 1454 to the death of Cosimo a decade later Challenging commonly held assumptions about the period Arthur Field insists that the Academy was not a hothouse plant grown and kept alive by the Medici in the splendid isolation of their villas and courts Rather Florentine intellectuals seized on the Platonic truths and propagated them in the heart of Florence creating for the Medici and other Florentines a new ideology Based largely on new or neglected manuscript sources this book includes discussions of the earliest works by the head of the Academy Marsilio Ficino and the first public Platonizing lectures of the humanist and poet Cristoforo Landino The author also examines the contributions both of religious orders and of the Byzantines to the Neoplatonic revival Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
