Studies in the History of Philosophy and Religion ,1973 **Time Matters** T.M. Rudavsky,Tamar

Rudavsky,2000-02-10 Traces the development of the concepts of time cosmology and creation in medieval Jewish philosophy

Method and Metaphysics in Maimonides' Guide for the Perplexed Daniel Davies,2011-09-15 This book investigates the substance and presentation of major metaphysical themes in Maimonides Guide for the Perplexed Using rigorous philosophy it seeks to refute the view that the Guide hides an esoteric philosophical meaning beneath a traditional veneer and offers a new explanation of his esotericism Maimonides T. M. Rudavsky,2009-12-01 A thorough and accessible

introduction to Maimonides arguably one of the most important Jewish philosophers of all time This work incorporates material from Maimonides philosophical legal and medical works providing a synoptic picture of Maimonides philosophical range Maimonides was and remains one of the most influential and important Jewish legalists who devoted himself to a conceptualization of the entirety of Jewish law Offers both an intellectual biography and an exploration of the most important philosophical works in Maimonides corpus Persuasively argues that Maimonides did see himself as engaged in philosophical dialogue Maimonides philosophy is presented in a way that is accessible to readers with little background in either Jewish or medieval philosophy Secondary readings are provided at the end of each chapter as well as a bibliography of recent scholarly articles on some of the more pressing philosophical topics covered in the book Judaism and the Doctrine of Creation Norbert M. Samuelson,1994-11-24 The topic of this book is creation It breaks down into discussions of two distinct but interrelated questions what does the universe look like and what is its origin The opinions about creation considered by Norbert Samuelson come from the Hebrew scriptures Greek philosophy Jewish philosophy and contemporary physics His perspective is Jewish liberal and philosophical It is Jewish because the foundation of the discussion is biblical texts interpreted in the light of traditional rabbinic texts It is philosophical because the subject matter is important in both past and present philosophical texts and to Jewish philosophy in particular Finally it is liberal because the authorities consulted include heterodox as well as orthodox Jewish sources The ensuing discussion leads to original conclusions about a diversity of topics including the limits of human reason and religious faith and the relevance of scientific models to religious doctrine *Samuel Ibn Tibbon's Commentary on Ecclesiastes* James T. Robinson,2007 Samuel Ibn Tibbon c 1165 1232 the eminent translator philosopher and exegete is most famous for his Hebrew translation of Maimonides Guide of the Perplexed However he wrote original works as well and laid the foundations for a distinctive philosophical exegetical movement what is today called Maimonideanism James T Robinson's book includes a first English translation of Ibn Tibbon's commentary on Ecclesiastes which was the foundational work of the Maimonidean tradition The translation with full annotation is accompanied by an introduction which provides relevant historical philosophical and exegetical background explains difficult passages and identifies Ibn Tibbon's important contributions to the emergence of Maimonideanism The author analyzes Ibn

Tibbon's sources and influences in Jewish philosophy and exegesis and in Graeco Arabic philosophy especially al Farabi and Averroes discusses his theory and method of exegesis and explains the main arguments and allegories of the work which relate to the problem of human perfection Responding to and developing the various positions of his time especially the infamous view of al Farabi that immortality of the soul is nothing but an old wife's tale Ibn Tibbon argues that conjunction with the active intellect is possible but rare only one man in a thousand can attain it Thus while the elite few should pursue it through a life of study and contemplation the many should focus on perfection in this world they should eat drink and show the soul good

Perception and the Internal Senses Juhana Toivanen, 2013-05-15 In Perception and the Internal Senses Juhana Toivanen advances a detailed philosophical reconstruction of Peter of John Olivi's ca 1248-98 conception of the cognitive psychology of the sensitive i.e. animal soul Like most medieval philosophers Olivi thought that higher animals and human beings have many psychological capacities in common The book analyses these capacities by concentrating on Olivi's conception of the metaphysics of the soul his theory of perception and his views about the post sensory cognitive power which medieval philosophers called the internal senses Being the first monograph in English that concentrates on Olivi's philosophical psychology Perception and the Internal Senses enables us to understand better medieval ideas concerning animal psychology and the human animal boundary

Aristotle's Physics and Its Medieval Varieties Helen S. Lang, 1992-01-01 This book considers the concepts that lay at the heart of natural philosophy and physics from the time of Aristotle until the fourteenth century The first part presents Aristotelian ideas and the second part presents the interpretation of these ideas by Philoponus Albertus Magnus Thomas Aquinas John Buridan and Duns Scotus Across the eight chapters the problems and texts from Aristotle that set the stage for European natural philosophy as it was practiced from the thirteenth to the seventeenth centuries are considered first as they appear in Aristotle and then as they are reconsidered in the context of later interests The study concludes with an anticipation of Newton and the sense in which Aristotle's physics had been transformed

No One's Ways Daniel Heller-Roazen, 2017-04-28 From Homer's Outis No One or Non One No Man or Non Man to soul spirit and the unnamable Homer recounts how trapped inside a monster's cave with nothing but his wits to call upon Ulysses once saved himself by twisting his name He called himself Outis No One or Non One No Man or Non Man The ploy was a success He blinded his barbaric host and eluded him becoming anonymous for a while even as he bore a name Philosophers never forgot the lesson that the ancient hero taught From Aristotle and his commentators in Greek Arabic Latin and more modern languages from the masters of the medieval schools to Kant and his many successors thinkers have exploited the possibilities of adding non to the names of man Aristotle is the first to write of indefinite or infinite names his example being non man Kant turns to such terms in his theory of the infinite judgment illustrated by the sentence The soul is non mortal Such statements play major roles in the philosophies of Maimon Fichte Schelling Hegel and Hermann Cohen They are profoundly reinterpreted in the twentieth century by thinkers as diverse as Carnap and Heidegger Reconstructing the

adventures of a particle in philosophy Daniel Heller Roazen seeks to show how a grammatical possibility can be an incitement for thought Yet he also draws a lesson from persistent examples The philosophers infinite names all point to one subject us Non man or soul Spirit or the unconditioned we are beings who name and name ourselves bearing witness to the fact that we are in every sense unnamable
