achievements in the context of a generational struggle to redefine the purposes of painting She describes the conditions of display distribution and interpretation that the neo impressionists challenged and explains how these artists sought to circulate their own work outside of the prevailing system Paintings Ward argues often anticipate and respond to their own conditions of display and use and in the case of the neo impressionists the artists relations to market forces and exhibition spaces had a decisive impact on their art Ward details the changes in art dealing and chronicles how these and new freedoms for the press made artistic vanguardism possible while at the same time affecting the content of painting She also provides a nuanced account of the neo impressionists engagements with anarchism and traces the gradual undermining of any strong correlation between artistic allegiance and political direction in the art world of the 1890s Throughout there are sensitive discussions of such artists as Georges Seurat and Paul Signac as well as Pissarro Yet the touchstone of the book is Pissarro s intricate relationship to the various factions of the Paris art world
