- Dilation of veins (decreased preload)

↓
Reduced LVEDP
Reduced wall stress
Reduction of mitral regurgitation

Coronary artery stenosis

Acute coronary syndrome

- Dilation of conduit arteries
- Dilation of collaterals

Lichtlen, H.-J. Engel, A. Schrey, H.J.C. Swan, 2012-12-06 Pharmacological and clinical research on nitrates continues to be of growing interest in many centers This is surprising in view of the fact that their favorable effects in angina pectoris were described by Brunton and by Murrell in the Lancet more than 100 years ago As expected a host of new information has been collected since the two previous symposia on nitrates held in Stockholm in 1975 and Berlin in 1978 New insights were gained into the pharmacology pharmacokinetics and pharmacodynamics of nitrates as well as into their clinical effects in acute and chronic ischemic heart diseases and in severe congestive heart failure Relatively little progress however was observed in research into the basic action of nitrates Although most investigators agree that intracellular sequestration of calcium is probably the main mechanism by which nitrates lead to the reduction of vascular smooth muscle tone the exact site of their action still remains undefined In contrast dose dependent differences in venous and arteriolar tone have long been clearly established Treatment was again in the main stream of discussion The question of tolerance following long term administration was discussed in depth and the term pseudotolerance was introduced to describe the adaptation of the body's circulatory system to chronic vasodilation This is especially important in long term prophylactic antiischemic treatment in stable as well as in unstable angina pectoris i.e. during increased vasomotor tone spasm **THE STUDY OF THE SYSTEMIC CORONARY AND MYOCARDIAL EFFECTS OF NITRATES- PROCEEDINGS OF A SYMPOSIUM ON CARDIOLOGY 1970- THE MYOCARDIUM AND THE CORONARY CIRCULATION 100 YEARS AFTER BRUNTON- AMERICAN COLLEGE OF CARDIOLOGY AND THE HEART ASSOCIATION OF UPSTATE NEW YORK.** , **Nitric Oxide and the Cardiovascular System** Joseph Loscalzo, Joseph A.
