Study Scores Of Historical Styles:

Study Scores of Historical Styles Harry B. Lincoln, 1986 An Index to Music in Selected Historical Anthologies of Western Art Music, Part 1 Mara Parker, 2019-01-01 An Index to Music in Selected Historical Anthologies of Western Art Music is the essential reference for music history and music theory instructors for finding specific listings and details for all the pieces included in more than 140 anthologies published between 1931 and 2016. Containing over 5 000 individual listings, this concise book is an indispensable tool for teaching music history and theory. Since many anthologies exist in multiple editions, this Index provides instructors, students, and researchers with the means to locate specific compositions in both print and online anthologies. This book includes listings by composer and title as well as indexes of authors, titles, and first lines of text for music from antiquity through the early twenty-first century. *Sourcebook for Research in Music* Phillip Crabtree, Donald H. Foster, 1993 This bibliography of bibliographies lists and describes sources from basic references to highly specialized materials. Valuable as a classroom text and as a research tool for scholars, librarians, performers, and teachers. **Sourcebook for Research in Music, Third Edition** Allen Scott, 2015-06-01 Since it was first published in 1993, the Sourcebook for Research in Music has become an invaluable resource in musical scholarship. The balance between depth of content and brevity of format makes it ideal for use as a textbook for students, a reference work for faculty and professional musicians, and as an aid for librarians. The introductory chapter includes a comprehensive list of bibliographical terms with definitions, bibliographic terms in German, French, and Italian, and the plan of the Library of Congress and the Dewey Decimal music classification systems. Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items, this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology, performance practice, women in music, popular music, education, business, and music technology. These enhancements to its already extensive bibliographies ensure that the Sourcebook will continue to be an indispensable reference for years to come. **Study Scores of Historical Styles** Harry B. Lincoln, 1986 *Tomás Luis de Victoria* Eugene Cramer, 1998 First Published in 1998, Routledge is an imprint of Taylor & Francis, an information company. **Schnittke Studies** Gavin Dixon, 2016-11-18 Alfred Schnittke, 1934-1998, was arguably the most important Russian composer since Shostakovich, and his music has generated a great deal of academic interest in the years since his death. Schnittke Studies provides a variety of perspectives on the composer and his music. The field is currently diverse and vibrant, and this book demonstrates the range of academic approaches being applied to Schnittke's work and the insights they provide, covering polystylism for which Schnittke is best known, the significance of the composer's Christian faith, and detailed formal analyses of key works with connections drawn between the apparently divergent periods of the composer's career. This book has been prepared as a memorial to Professor Alexander Ivashkin, a leading scholar in the field who died in 2014, and will be of interest not only to those studying Schnittke's music but also to those with an interest in late Soviet-era music in
