Self-Studies of Science Teacher Education Practices Shawn M. Bullock, Tom Russell, 2012-03-21 Part of a vital Springer series on self study practices in teaching and teacher education this collection offers a range of contributions to the topic that embody the reflections of science teacher educators who have applied self study methodology to their own professional development The material recognizes the

paradox that lies between classroom science and the education of science teachers the disciplines of science are often perceived as a quest for right answers an unintentional by product of the classroom focus on right answers in student assessment in science In contrast the profession of teaching has few right answers and frequently involves the management of conflicting tensions A dilemma thus arises in science teacher education of how to shift perspectives among student teachers from reductionist to more inclusive attitudes that are open to the mercurial realities of teaching The self studies presented here are unique fresh and stimulating They include the input of a beginning science teacher as well as science teacher educators from a range of backgrounds and varying levels of experience In addition the volume presents a truly international perspective on the issues with authors hailing from five countries Providing analysis at the leading edge of education theory this collection will make fascinating reading for those teaching science as well as those teaching science teachers

Self-Study Research Methodologies for Teacher Educators, 2019-02-11 Study Research Methodologies for Teacher Educators is a comprehensive text that delineates a range of research methodologies This edited volume with many chapters written by self study scholars who are noted in the field for particular methodological and epistemological perspectives helps fill the gap in the literature on self study research methods It provides readers with an opportunity to examine various methodologies which will not only help them deepen their understanding of research but also will allow them to select one that best suits their needs Both new and experienced researchers will find this text valuable We consider Self Study Research Methodologies for Teacher Educators a valuable contribution to the field of teacher education

Professional Learning Through Transitions and Transformations Judy Williams, Mike Hayler, 2015-10-09 Through a narrative inquiry approach this book examines the personal professional journeys of teacher educators who have undertaken self studies and or researched the professional development of teacher educators The theme of the book is how change through professional transitions and transformations and notably through self study research has shaped the professional identities and practices of these teacher educators Each chapter is an exploration of how the author s became teacher educators in relation to personal and or professional transitions such as transitioning from teacher to teacher educator moving between different institutional and geographic contexts or from changes in philosophical policy and or pedagogical understandings over time Each narrative draws on the author s self study experience and develops their knowledge further by presenting the wisdom they have gained over their career as teacher educators The book concludes with a discussion of the connections between the diverse experiences of the authors and what can be learned from their accumulated wisdom about what it means to become a teacher educator in a dynamic and ever changing educational landscape
