Studying Womens Writing:

Indigenous Women's Writing and the Cultural Study of Law Cheryl Suzack, 2017-05-08 In *Indigenous Women's Writing and the Cultural Study of Law* Cheryl Suzack explores Indigenous women's writing in the post civil rights period through close reading analysis of major texts by Leslie Marmon Silko, Beatrice Culleton Mosionier, Louise Erdrich, and Winona LaDuke. Working within a transnational framework that compares multiple tribal national contexts and U.S./Canadian settler colonialism, Suzack sheds light on how these Indigenous writers use storytelling to engage in social justice activism by contesting discriminatory tribal membership codes, critiquing the dispossession of Indigenous women from their children, challenging dehumanizing blood quantum codes, and protesting colonial forms of land dispossession. Each chapter in this volume aligns a court case with a literary text to show how literature contributes to self-determination struggles. Situated at the intersections of critical race, Indigenous feminist, and social justice theories, *Indigenous Women's Writing and the Cultural Study of Law* crafts an Indigenous feminist literary model in order to demonstrate how Indigenous women respond to the narrow vision of law by recuperating other relationships to themselves, the land, the community, and the settler nation.

Women's Writing, 1660-1830 Jennie Batchelor, Gillian Dow, 2016-12-19 This book is about mapping the future of eighteenth-century women's writing and feminist literary history in an academic culture that is not shy of declaring their obsolescence. It asks what can or should unite us as scholars devoted to the recovery and study of women's literary history in an era of big data on the one hand and ever more narrowly defined specialization on the other. Leading scholars from the UK and US answer this question in thought-provoking, cross-disciplinary and often polemical essays. Contributors attend to the achievements of eighteenth-century women writers and the scholars who have devoted their lives to them and map new directions for the advancement of research in the area. They collectively argue that eighteenth-century women's literary history has a future and that feminism was and always should be at its heart. Featuring a Preface by Isobel Grundy and a Postscript by Cora Kaplan.

Early Modern Women's Writing and the Future of Literary History Lara Dodds, Michelle M. Dowd, 2025-02-03 *Early Modern Women's Writing and the Future of Literary History* demonstrates that a full accounting of early modern women's literary and creative activities is necessary to the future of literary studies writ large. Despite benefiting from a rich body of scholarship and diverse critical practices, early modern women's writing is still treated as an optional or secondary component of Renaissance literary studies as a whole. In this book, Dodds and Dowd offer a state-of-the-field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future. Dodds and Dowd examine how perennial questions about authorship, canon, and literary value have historically influenced scholarship on early modern women's writing and its place within literary studies. Early modern women's writing has been perceived as belated, out of sync with dominant critical trends. Dodds and Dowd show the belatedness of early modern women's writing to be a happy accident that positions women's writing as a resource for the

renewal of literary history In both the classroom and in scholarship early modern women s writing shows the way forward for the field whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies This book demonstrates that a feminist literary history that places women s writing at its center is essential to the future of English Renaissance literary studies There is in other words no history of English Renaissance literature without women writers The Oxford Handbook of Early Modern Women's Writing in English, 1540-1700 Elizabeth Scott-Baumann,Danielle Clarke,Sarah C. E. Ross,2022-09-22 The Oxford Handbook of Early Modern Women s Writing in English 1540 1700 brings together new work by scholars across the globe from some of the founding figures in early modern women s writing to those early in their careers and defining the field now It investigates how and where women gained access to education how they developed their literary voice through varied genres including poetry drama and letters and how women cultivated domestic and technical forms of knowledge from recipes and needlework to medicines and secret codes Chapters investigate the ways in which women s writing was an integral part of the intellectual culture of the period engaging with male writers and traditions while also revealing the ways in which women s lives and writings were often distinctly different from women prophetesses to queens widows and servants It explores the intersections of women writing in English with those writing in French Spanish Latin and Greek in Europe and in New England and argues for an archipelagic understanding of women s writing in Scotland Wales Ireland and England Finally it reflects on and challenges the methodologies which have developed in and with the field book and manuscript history editing digital analysis premodern critical race studies network theory queer theory and feminist theory The Oxford Handbook of Early Modern Women s Writing in English 1540 1700 captures the most innovative work on early modern women s writing in English at present **Catechisms and Women's Writing in Seventeenth-Century England** Paula McQuade,2017-07-03 Catechisms and Women s Writing in Seventeenth Century England is a study of early modern women s literary use of catechizing Paula McQuade examines original works composed by women both in manuscript and print as well as women s copying and redacting of catechisms and construction of these materials from other sources By studying female catechists McQuade shows how early modern women used the power and authority granted to them as mothers to teach religious doctrine to demonstrate their linguistic skills to engage sympathetically with Catholic devotional texts and to comment on matters of contemporary religious and political import activities that many scholars have considered the sole prerogative of clergymen This book addresses the question of women s literary production in early modern England demonstrating that reading and writing of catechisms were crucial sites of women s literary engagements during this time **The Cambridge Companion to Victorian Women's Writing** Linda H. Peterson,2015-10-14 The Cambridge Companion to Victorian Women s Writing brings together chapters by leading scholars to provide innovative and comprehensive coverage of Victorian women writers careers and literary achievements While incorporating the scholarly

insights of modern feminist criticism it also reflects new approaches to women authors that have emerged with the rise of book history periodical studies performance studies postcolonial studies and scholarship on authorship readership and publishing It traces the Victorian woman writer s career from making her debut to working with publishers and editors to achieving literary fame and challenges previous thinking about genres in which women contributed with success Chapters on poetry including a discussion of poetry in colonial and imperial contexts reveal women s engagements with each other and male writers Discussions on drama life writing reviewing history travel writing and children s literature uncover the remarkable achievement of women in fields relatively unknown
