

Surgery, Ethics & Law

- Surgery can be defined as the action of man upon man.
- It can be conceived
 - passionate art, where the matter worked with is living flesh
 - science, where knowledge is dominated by the power of action
- Surgery intertwines with ethics and law
 - unlike other contexts where inflicting harm might lead to criminal charges,
 - performed with the intent to heal, not harm.
- If these actions inadvertently result in harm/death, they are viewed through the lens of medical intent rather than criminal liability.
