Liodakis,2016-02-24 Anchored in contemporary debates on capitalism and political economy this study reconsiders the major
trends which are currently shaping a new stage of capitalism With chapters examining globalization the role of technology
and environmental degradation George Liodakis constructs a politico economic approach on contemporary capitalism from
within a classical Marxist framework of political economy The volume provides a fitting balance between theory and
empirical evidence and significantly enriches the existing scholarship on contemporary capitalism and the potential for social
change This is an important contribution to those interested in international political economy in particular with developing a
new political strategy for going beyond capitalism a reinvention of a communist perspective
