Educating Children with Complex Conditions Winand H Dittrich, Rona Tutt, 2008-09-18 This is an important contribution to the field of SEN By putting the child into a context the authors recognize that each child is unique and cannot be reduced to a simple diagnosis Highly recommended SEN Magazine In just over 100 pages this book gives the clearest account I have yet read of overlapping and co existing conditions All professionals working with children with complex conditions will find it both interesting and practical Special The book is written in an easily digestible form and provides insight into overlapping conditions as well as advice on support to those working to meeting the needs of pupils with these complex disorders SNIP Many have tried but few have succeeded in bringing together the varying threads of special educational needs into a concise and proactive format I know having tried and failed myself Here at last Dittrich and Tutt have created a fascinating account of the current SEN world and have succeeded in my opinion in demystifying and explaining the significance of specific SEN terms while illustrating that overlap is more the norm than the exception Well researched and written with both clarity and experience

the authors stress that there really is no such thing as a SEN child but that some children are in essence more interesting in their learning and behaviour style than others Fintan O Regan Author and Consultant There are growing numbers of children displaying the symptoms of more than one condition or disorder and this has led to those involved in education needing to understand which conditions commonly overlap or co exist and how to meet children s more complex needs By bringing together some of the latest research on how the brain learns with what is known about identifying developmental disorders that appear to have a common biological basis this book covers what is known about a common group of disorders including ADHD autistic spectrum disorders dyslexia dyscalculia and dyspraxia how to recognise when a child may have more than one condition what teaching approaches and strategies might be most relevant Written in a non technical style the book blends together scientific knowledge from different disciplines and translates it into practical terms for school leaders practitioners in the field of special educational needs and disabilities and students following courses in higher education **Time to Talk** Jean Gross,2013-05-21 Time to Talk provides a powerful and accessible resource for practitioners to help develop their own skills as well as supporting a whole school or setting approach to speaking and listening Written by the government s former Communication Champion for children it showcases and celebrates effective approaches in schools and settings across the country Jean Gross helpfully summarises research on what helps children and young people develop good language and communication skills and highlights the importance of key factors a place to talk a reason to talk and support for talk This practical and engaging book also provides whole class approaches to developing all children and young people s speaking and listening skills catch up strategies for those with limited language ways in which settings and schools can develop an effective partnership with specialists such as speech and language therapists to help children with more severe needs examples of good practice in supporting parents carers to develop their children s language skills answers to practitioners most frequently asked questions about speech and language This book is for all school leaders teachers and Early Years practitioners concerned about the growing number of children and young people with limited language and communication skills
