Silby, 2020-04-28 The educational provision for early years is growing and changing across many parts of the world not least in the UK While this book leans heavily on the mounting literature on early child development in its broadest sense physically emotionally linguistically its central focus lies squarely on the growth of children s scientific thinking and activities Written by educators this book is based both on formal educational research and professional practice in action The authors describe children s science concept development their curiosity driven exploration emergent ecological literacy their learning through science play the assessment of early learning the role of parents and practitioners within early education contexts and some question the very basis of the science being taught Illustrations and examples of practice are not confined to the UK though the messages to be derived from each chapter have application way beyond the immediate context This book was originally published as a special issue of Early Child Development and Care *Resources in Education*, 2001 *The British National Bibliography* Arthur James Wells, 2006 *Culture and Foreign Language Education* Wai Meng Chan, Sunil Kumar

Bhatt, Masanori Nagami, Izumi Walker, 2015-07-31 The teaching of culture and interculturality is today viewed as an integral part of foreign language education This book presents insights from recent research on the role of culture in second foreign and heritage language education It contains 14 chapters including an introductory chapter that discusses diachronically the evolving notion of culture and how the sociocultural view of culture as a complex and dynamic concept informs language teaching and language learning research The chapters following the introduction are organised in four parts focusing on 1 the teacher s role in integrated language and culture learning 2 the interrelationship between culture identity and language learning and use 3 the effect of culture on learner characteristics which impact language learning processes and outcomes and 4 curriculum development aimed at fostering language and culture learning The chapters in Parts 1 to 3 present

contributions from current research either in the form of the authors original studies or comprehensive reviews of relevant essential research which bears important implications for curricular practice in foreign language and language teacher education This close link between research theory and practice is also maintained in the two chapters in Part 4 which present developmental projects based on well grounded theoretical frameworks **Personnel Literature**, 1984 *Creativity in Primary Education* Anthony Wilson, 2014-12-04 An alien spaceship crash landed in my playground today For one primary school in England this was not an ordinary day It was a fabulous day of inspiration writing drawing discovering and learning for the pupils the staff and the parents But the best thing of all The only truly out of the ordinary thing was the alien spaceship So how do you make creativity a more everyday part of primary teaching Teachers and trainees agree that creativity is a fabulous thing But to get creative approaches into everyday teaching you need to tackle the question what is creativity This book explores this question in an accessible and practical way It helps trainees to do more than know it when they see it by helping them to understand the separate and very diverse elements of creativity The third edition of this popular text retains key material but it has been updated and revised to include two new chapters on the creative curriculum along with links throughout to the Standards and the new National Curriculum This book will help you enhance your teaching so you and the children in your class can be fellow explorers adventurous discoverers and spontaneous investigators

**Boletin Internacional de Bibliografia Sobre Educacion**, 2003 **Preparing Foreign Language Teachers for Next-Generation Education** Lin, Chin-Hsi, Zhang, Dongbo, Zheng, Binbin, 2016-07-21 The growth of Information and Communication Technology ICT has changed the dynamics of education as self directed learning especially on mobile devices is as accessible as ever Despite the near infinite amount of information available for students outside of school the classroom remains the most critical aspect of student s growth Teachers now play crucial roles in engaging ICT s full potential to create an environment of meaningful learning to develop students critical thinking skills Preparing Foreign Language Teachers for Next Generation Education concerns itself with the integration and study of new technologies in foreign language education Featuring theoretical and empirical chapters related to the confluence of teacher education teacher cognition and innovative technologies it provides engaging insight into foreign language teachers perceptions and the influence of those perceptions This publication is quintessential to foreign language teachers administrators policy makers students of education programmers and developers *Research in Education*, 1974 **Otto E. Miller, Plaintiff-Respondent, Against Fred W. Smythe, Defendant-Appellant**, **Teacher Learning in the Digital Age** Chris Dede, Arthur Eisenkraft, Kim Frumin, Alex Hartley, 2016-03-29 With an emphasis on science technology engineering and mathematics STEM training Teacher Learning in the Digital Age examines exemplary models of online and blended teacher professional development including information on the structure and design of each model intended audience and existing research and evaluation data From video based courses to just in time curriculum support platforms and MOOCs for educators the cutting edge initiatives described in these

chapters illustrate the broad range of innovative programs that have emerged to support preservice and in service teachers in formal and informal settings As teacher development moves online the editors argue it s important to ask what works and what doesn t and for whom They address these questions by gathering the feedback of many of the top researchers developers and providers working in the field today Filled with abundant resources *Teacher Learning in the Digital Age* reveals critical lessons and insights for designers researchers and educators in search of the most efficient and effective ways to leverage technology to support formal as well as informal teacher learning
