Lenarcik's blind leap from the safe comfortable and utterly bullshit corporate world of Dublin to the charming exotic beaches of Thailand. With rose tinted glasses firmly in place Marek fully expects to find a land of exotic fruits beautiful women and an easy going tropical lifestyle. Which he does. At first Traveling from Phuket to Bangkok and throughout Thailand's exotic locales Marek's desire to experience all the forbidden fruits Thailand has to offer leads him to Piam a gorgeous kind independent Thai girl who he is convinced might well be the one. But as he immerses himself deeper into this strange country replete with often inexplicable thought patterns worldviews and customs Marek begins to discover a much darker more complex side to the Land of Smiles and its inhabitants. Soon Piam begins to reveal her true colours. It soon dawns on him that despite his best intentions most of the time he has been ensnared as have many men before him by the dreaded Honey Trap. The stormy relationship that ensues provides a fascinating backdrop to the insights into Thailand's unique culture that stem from Marek's efforts to come to terms with the reality of the country and the people who call it home.

**The Lowdown on China's Higher Education** Martin Wolff, 2011-07-12 Obviously you are not chanting the exultations of China which many of my country people are used to listening to. A Chinese scholar recognizes that this book is not a further attempt to curry favor with China by tickling its leaders' ears. This book examines what is right and the truth about what is wrong with English language education in Chinese colleges and universities. As our Chinese colleague further states Most Chinese are learning English like one learning swimming ashore. We have been writing about these shortcomings for ten years. It arises because administrators posted to their positions due to party affiliation and good standing are basically ignorant of administration and educational matters. The VIPs of EEC believe that they know while they don't what are under their supervision the professionals of EEC believe that what they are doing academically is helpful while it's not. The two types are making the common non professional people believe that they are knowingly reliable while they are not. The educated as well as the illiterate do not know what to do and what not to do what is correct and what is wrong what is worthy and what is not etc. The weakness from the historical perspective is also a consequence of modern Chinese history whose knowledge most Chinese people are poor at but reluctant to admit. This book could not be published within China due to its truthfulness.
