and English Language Teaching (ELT). Many practitioners wonder how they can do CLIL if their main classes are focused on English as a Foreign Language (EFL). This volume addresses these concerns by examining the experiences of various CLIL practitioners in the EFL context of Japan. Chapters outline the CLIL methodology, the differences in hard CLIL (subject led) and soft CLIL (language oriented), before focusing on the EFL interpretations of soft CLIL. Although the distinction of hard CLIL and soft CLIL has been mentioned in several publications, this is the first book length exploration of this issue featuring chapters examining expectations, challenges, material support, implementation, and even motivation in CLIL classrooms. All of this culminates in a review of the potential and future of CLIL in EFL contexts, paving the way for more widespread and well informed implementation of CLIL all over the world. **Soft Skills for Children** Nancy Armstrong Melser, 2019-10-31.
