oral communication skills are comprised of and how far they can be successfully developed in English as a foreign language EFL classrooms at primary level I will look at the aspects which must be considered in order to enable pupils to actively use the foreign language in the classroom and resulting from this in real life situations In order to do so I consulted several introductions to EFL learning and teaching both at primary and secondary level and literature dealing with the aspects of speaking and communicative competence even though they were in most cases designed for secondary schools and adult education as well as articles taken from primary English magazines giving insights into the practice of language teaching
