Literacy

In selecting our articles, we looked for studies that conceptualized literacy as a whole. The research included in this section covers a wide range of literacy learners. We included studies focusing on early childhood, childhood, adolescent, and adult literacy learners. Most of the articles selected came from the United States of America, Australia, and Africa. Priority was given to studies related to community literacy, basic literacy, counter-stories, and different ways of knowing and being literate. (Krischa-Gail Martin-Kerr, lead contributor)

- Examines women's experiences of functional adult literacy as a gateway to financial progress. Analyzes focus group discussions, in-depth interviews, observations, and document reviews of 85 participants. Finds that functional adult literacy brings out women's individual and collective agency through conscientization concepts and dialogue. Concludes that functional literacy training improves women's livelihoods.
- Brown, E., Rosenthal, J., & Dymega, N. (2018). Teaching strategies to develop a family-school literacy partnership. *International Journal of Whole Schooling*, 14(1), 31–56.
- Explores a first-grade team's efforts to develop a family-school literacy partnership. Reports on a teacher-administered survey of families that revealed unexpected at-home literacy practices. Highlights the finding that teacher communication may have created confusion for parents around which books brought home as homework were appropriate for independent reading versus read-aloud. Additionally, notes that families reported less at-home reading than was expected by teachers. Argues that teachers should make home literacy expectations clear so that parents understand how to help their children.

Teaching Shakespeare And The Emblem A Lecture And Bibliography:

Teaching Shakespeare and the Emblem : a Lecture and Bibliography Canadian Society for Renaissance Studies. Atlantic Canada Regional Conference (1992 : Acadia University), Peter M. Daly, 1993 **Literature in the Light of the Emblem** Peter Maurice Daly, 1998-01-01 The literature of the 16th and 17th centuries was informed by the symbolic thought embodied in the mixed art form of emblems This study explores the relationship between the emblem and the literature of England and Germany during the period The Shakespearean International Yearbook: Where are We Now in Shakespearean Studies? John. M Mucciolo, William R Elton, 2017-11-22 This title was first published in 2002 This second volume of The Shakespearean International Yearbook continues the work of assessing the present state of Shakespeare studies in the new millennium Comprising 20 essays by distinguished scholars from North America the UK and Australia it is divided into sections on criticism and theory text textuality and technology Renaissance ideas and conventions and Shakespeare and the city The essays address issues that are fundamental to our interpretive encounter with Shakespeare including those of gender and sexuality the staging of plays and historical research on matters such as the monarchy language religion and the law Shakespeare's Books Stuart Gillespie, 2016-02-25 Shakespeare s Books contains nearly 200 entries covering the full range of literature Shakespeare was acquainted with including classical historical religious and contemporary works The dictionary covers works whose importance to Shakespeare has emerged more clearly in recent years due to new research as well as explaining current thinking on long recognized sources such as Plutarch Ovid Holinshed Ariosto and Montaigne Entries for all major sources include surveys of the writer s place in Shakespeare s time detailed discussion of their relation to his work and full bibliography These are enhanced by sample passages from early modern England writers together with reproductions of pages from the original texts Now available in paperback with a new preface bringing the book up to date this is an invaluable reference tool **Emblematics in Hungary** Éva Knapp, Gábor Tüskés, 2012-10-25 The main aim of the work is to present emblematics in Hungary in its European context and to show the reciprocal influence between that phenomenon and mainstream literature The description of the theoretical and historical development in Hungary is supplemented by a series of case studies examining the effect of emblematics upon various literary genres The final chapter analyzes the link between literary emblematics and the visual arts by looking at a specific example As in most European countries emblematics in Hungary is part of a complex labyrinth of literary modes of thought and expression A relative poverty of theoretical writing went hand in hand with a considerable range of emblematic practice The emblem proved to be a transitional form between the period when signs and motifs were regarded as having specific and fixed meanings and the modern period when we have developed a different and shifting concept of language and meaning At the same time as emblems began to penetrate the more popular levels of national culture and literature they also became more specialized Hungarian emblematics used for the most part existing pictorial and textual combinations of pictures and

texts They employed the emblem notably in genres and texts of the genus demonstrativum which referred to matters which were topical at the time

Other Voices, Other Views Helen Ostovich, Mary V. Silcox, Graham Roebuck, 1999-12 The debate over canon represented by this book is implicit in the broad range of its contents As a whole it argues for expansion the inclusion of other voices to augment the standard university syllabus for the early modern period urging recognition of the period's diversity and reforming the conditions under which we pass judgment on its culture Each of these essays reveals the literary potential of works that have been considered inferior and inappropriate for serious study While such individual discovery is certainly valuable what is even more interesting is their significance as a group All the essays contained here are engaged in opening texts up to different perspectives creating a canon that speaks of diversity rather than uniformity

The International Emblem Simon McKeown, 2010-02-19 The emblem a Renaissance literary genre which combined text and image conveyed erudition admonishment propaganda and piety with unparalleled concision and economy It arose out of humanist circles in the early sixteenth century and quickly became established as a staple tool in religious political and social discourses across the major European languages In recent years the emblem has come to be regarded by scholars working in all areas of the humanities and cultural studies as an interdisciplinary matrix of extraordinary utility in gaining insights into the mentalities and preoccupations of the early modern era Within its apparently slender frame the emblem embraces questions of foremost philological semiotic and iconographical importance and encompasses ideas and assumptions of exceedingly far range and reach This collection of essays attests to the pervasiveness of the emblem both within Renaissance and Baroque Europe and in those parts of the wider world where European influence came to bear It seeks to follow the development of the emblem from its beginnings in various forms of bimodal artefact from early illustrated books and hieroglyphs to medals and ancient coins we then witness its deployment as a propagandistic tool in the temporal and confessional disputes of Europe Thereafter the emblem appears in non European contexts emerging as a place of cultural exchange as it became assimilated within indigenous visual traditions The latter parts of the book concentrate on the often subliminal role emblems played in diverse literary texts as well as their ongoing vitality in praxis or in the burgeoning area of emblem scholarship within early modern studies
