Selena Chan, 2020-02-24 This book gathers work from over a decade of study and seeks to better understand and support how learners become tradespeople. The research programme applies recent concepts from neuroscience educational psychology and technology-enhanced learning to explain and help overcome the challenges of learning in trades learning contexts. Due to the complex and multifarious nature of the work characterising trade occupations learning how to become a tradesperson requires a significant commitment in terms of time along with physical and cognitive effort. All modalities visual aural haptic etc and literacies text numerical spatial etc are required when undertaking trade work. Manual dexterity and strength coupled with the technical and tacit knowledge required for complex problem solving not to mention suitable dispositional approaches must all be learnt and focused on becoming a tradesperson. However, there is a substantial gap in the literature on how people learn a trade and how to teach a trade. In this book contemporary teaching and learning approaches and strategies as derived through practice-based participatory research are used to highlight and discuss pragmatic solutions to facilitate the learning and teaching of trade skills knowledge and dispositions. The approaches and strategies discussed include the implementation of technology-enhanced learning project-based inquiry problem-based learning and recommendations to ensure learners are prepared for the future of work Challenging Professional Learning

Sue Crowley, 2013-10-23 Teachers and trainers are dual professionals; they are required to have up-to-date industry skills and also skills in teaching and learning. The issue of professional identity and the promotion of maintaining and building pedagogic expertise in relation to their vocational work is therefore an extremely important one. This book argues that quality teaching and learning is very much dependent upon teachers and trainers undergoing continuing professional development (CPD) engaging actively in professional learning activities generating professional learning communities and building their level of professionalism to meet increasing teaching standards. Unfortunately CPD is battling a context of intensification of work pressure of time and economic restrictions. The completion of CPD under such conditions can often become tokenistic and hitherto there has been very little research or evidence base for determining what approaches to CPD are most effective and efficient. *Challenging Professional Learning* draws on a wealth of recent research and evidence on what ingredients are necessary for effective and efficient CPD at a time of such fiscal constraints professional learning. It also explores the wider

implications of these findings and the concept of learning as a collective activity It argues that real professionalism cannot be achieved in isolation but instead takes place in a context that has political social and cultural influences The book brings together research from the Institute for Learning and practice around professional learning to link both individual and collective professional learning to organisational learning leadership and the management of change whilst offering practical suggestions for improving these practices It will be of great interest to teacher educators and their students at undergraduate and post graduate levels as well as anyone who works in higher education and with professional development

Changing Faces of Adult Literacy, Language and Numeracy Mary Hamilton, Yvonne Hillier, 2006 Shows how creativity can be an approach to and an ethos for several aspects of school life and management This book examines organisation leadership approaches to teaching and learning curriculum design assessment for learning and more It is useful for those working in partnership with schools and also for those involved in school change Teaching in Lifelong Learning 3e A guide to theory and practice James Avis, Roy Fisher, Ron Thompson, 2018-11-29 Addressing the Professional Standards for Teachers and Trainers this bestselling textbook helpfully balances theory and practice introducing key theories and concepts relating to learning and assessment as well as providing practical advice on teaching Extensively revised and updated to reflect the current educational policy environment this textbook for teaching provides thorough and extensive coverage of the topics for higher level awards in Education and Training The textbook provides a logical progression through the essential aspects of teaching such as planning and assessment it considers key related areas including teacher professionalism equality and diversity and mentoring and coaching and it presents this invaluable guidance in an accessible and readable format In outlining the challenges opportunities and debates in and around lifelong learning the editors and contributing authors draw on their extensive teaching experience as well as offering an evidence based approach with a wide range of research Teaching in Lifelong Learning A Guide to Theory and Practice is core reading for those teaching or preparing to teach in further higher and community education as well as in public sector contexts and in private training organisations including those studying for CertEd PGCE and related awards such as the Level 4 Certificate and Level 5 Diploma in Education and Training Teacher education in FE continues to be an important and unresolved issue and this book is a great asset in supporting individuals in understanding and developing their practices With a focus on developing critical inquiring practitioners the text reads like an experienced mentor sharing pointers questions and useful readings over a collegial cup of coffee Dr Tim Herrick Senior University Teacher University of Sheffield UK **The British National Bibliography** Arthur James Wells, 2005 Teaching in Post-Compulsory Education Fred Fawbert, 2003-12-09 This practical guide to the numerous diverse contexts within Further Education today provides a valuable resource for intending or experienced teachers trainers and support workers within post compulsory education who are working towards professional awards based on National Standards It contains material on such key aspects of professional development as planning

delivering assessing and evaluating teaching and learning Information is also provided on such influential factors as the Common Inspection Framework Ofsted Learning and Skills Council and the Basic Skills Agency

The Nuts and Bolts of Vocational Training and Assessment Eric Baker, 2015-05-28 If you've ever stopped to ask for directions you will probably have noticed that many people have the basic instincts needed to teach and enjoy imparting their knowledge Added to appropriate subject knowledge this is where vocational training begins Building on your subject knowledge and skills The Nuts and Bolts of Vocational Training and Assessment is an accessible and invaluable guide for vocational trainers As someone who has always learned best through doing things rather than academic study author Eric Baker has made his book practical in a day to day way Its authority comes from his past training experiences and personal development as a vocational trainer Starting from the basic principles it takes the reader through the intricacies of providing training courses in a step by step way and covers areas not usually addressed in educational textbooks This book is primarily intended to be a companion for those studying to achieve an academic vocational qualification As such it provides support by being accessible bringing a common sense approach and using a sense of humour The conversational style of traditional textbooks is combined with the modern exact approach expected today resulting in an accessible and enjoyable read Above all it does what it says on the cover
