Colson, 2015-07-09 Following on the heels of his Conducting and Rehearsing the Instrumental Music Ensemble John F Colson takes students to the next level in conducting practice with Rehearsing Critical Connections for the Instrumental Music Conductor Colson draws together the critical connections for those seeking to become fully capable and self assured instrumental music conductors As he argues too often conductor training programs treat the problems and challenges of the rehearsal perhaps the single most critical element in any effort to achieve competency as a

conductor as secondary Colson supplies the missing link for conductors looking for advice that allows them to complete their training for reaching complete competency as a conductor He demonstrates throughout the specific connections that the advanced conductor must know and regularly employ connections that few if any other works on the art of conducting address or bring together One connection for example illustrates the joining of music imagery inner singing and conducting technique to score study Throughout these connections describe the nitty gritty of what it really takes to stand up in front of an instrumental music ensemble and successfully rehearse in order to achieve its highest performance level Also Colson argues and demonstrates the pitfalls of the commonly mistaken assumption among instrumental music conductors that score study alone is sufficient to prepare them for the rehearsal process This grave error is regularly belied by the fact that a number of other steps precede the actual rehearsal process from the use of instrumental pedagogy during the rehearsal process to teaching through performance concepts Colson's work addresses the entire rehearsing process thoroughly and authoritatively Syllabi for Music Methods Courses Barbara Lewis, 2002 This collection of syllabi reviewed and selected by a committee from the Society of Music Teacher Education SMTE offers a look at what is currently being taught in music education courses across the country It includes syllabi for graduate and undergraduate courses in general choral and instrumental music as well as courses dealing with research methods and computers in music education Conductor Frank L. Battisti, 2007 Meredith Music Resource This incredible book by one of the world's foremost authorities on conducting contains no conducting patterns and no advice on how to conduct any piece Instead it focuses on the skills knowledge and experiences needed to become and function as a conductor teacher This text is a must have for all serious musicians It captures the legacy and wisdom of one of the most important conductors of our time This is what can happen when a focused and inquisitive mind meets up with a uniquely creative imagination Eugene Migliaro Corporon Director of Wind Studies College of Music University of North Texas a href http youtu be JM6g4KBA4Fk target blank Click here for a YouTube video on On Becoming a Conductor a The Conductor's Legacy Paula A. Crider, 2010 What would you ask the leading band directors of our time in a one on one conversation Paula A Crider a seasoned and distinguished band director in her own right shares the wealth of knowledge gleaned from her interviews of the extraordinary personalities who have changed the landscape of the wind band world in this remarkable book With insight and clarity of thought she asks the probing questions that prompt stories of talent work sacrifice ingenuity bravery and determination These pioneering and innovative conductors share their concept of band sound views on score marking advice to music majors and young band directors thoughts on how to advance the wind band genre the elements of their musical success and much more about the art and craft of conducting a band In calling forth these thoughts the author inspires these leaders of the wind band profession to remind us all not only of where we have come from but also provide a stirring handoff to us and to future generations Towards a Meaningful Instrumental Music Education.
