an African presence at the genesis of the religion in Iran this study seeks to explain why the movement found an appeal in colonial Africa during the 1950s and early 1960 It also explores how the Baha'i faith was influenced and Africanized by its new converts Finally the book seeks to make sense of the diverse and contradictory American Iranian British and African elements that established a new religion in Africa **Baha'i World** ,1926 **Resources in Education** ,1999 *Baha'i Faith* Paula Hartz,2009 The youngest of the world religions the Bahai faith is also one of the fastest growing increasing from 200 000 followers worldwide in 1950 to more than five million members today Founded in 1863 this religions essential belief centers on the unity of all religions and the abolition of racial class and religious prejudices Bahai Faith Third Edition explores all aspects of the Bahai faith from the original teachings of its founder Bahaullah to the modern day communities that exist in 236 countries and territories throughout the world **The Baha'i Faith in America** William Garlington,2008-02-05 The Baha'i Faith in America provides an engaging and accessible overview of one of the world's youngest and fastest growing religions William Garlington explores the principles of the Baha'i faith and traces the historical development Baha'i faith both worldwide and in the US Baha'i and Globalisation Annika Hvithamar,Margit Warburg,Morten Warmind,2005-12-01 Globalisation has become a buzzword that typically refers to the intensifying integration of the world economy especially as midwifed by technological advances It also implies a growing political and cultural sense that all humanity is globally interdependent There have always been individuals of course who have advocated such awareness one of them being the founder of the Baha'i faith who formulated a spiritual equivalent as the religion's central doctrine in the late 19th century Ye are the fruits of one tree and the leaves of one branch Its emphasis on global unification made Baha'i an obvious candidate for a case study on new religions and globalisation The chapters in this volume fall into two sections diachronic and synchronic The first part is organised chronologically beginning with the emergence of the globalist tendency in the messianic vision of Babism the precursor to Baha'i and concluding with an analytic history of its leaders changing attitudes to international politics The second part considers a variety of global themes in contemporary Baha'i practice including global thought in Baha'i writings the impact of the internet and the triumphalist and secular strains in Baha'i identity Though five million members make it one of the world's most successful new religions Baha'i has attracted little scholarly attention Most of the academics concentrating on Baha'i have contributed to this volume which will appeal not only to students of modern religious movements but to anyone interested in the ways religions can adapt to and embrace the modern world *Daybreak* ,1998 *History of the Baha'i Faith in South Carolina*, A Louis Venters,2019 The Bah Faith is increasingly acknowledged as South Carolina's second largest religion part of the social fabric of the state The earliest mentions of the distinctively interracial theologically innovative faith community in the state date back to the Civil War Black white and indigenous South Carolinians defied racial and religious prejudices to join the religion during the tumultuous civil rights era From the visit of the first Bah teacher in 1910 to the Carolinian Pentecost of the 1970s and beyond the faith has
