

Behaviour risk assessment tool – safety or wellbeing

This tool will assist principals to determine the:

- level of risk to the safety or wellbeing of members of the school community; and
- likelihood the behaviour will adversely affect the good order and management of the school.

This process involves determining the level of risk associated with the behaviour and the potential impact or adverse outcome. In order to assess the level of risk, it is important to consider the available information including, but not limited to:

- information held by the school about the student and their previous disciplinary record;
- the known behaviour(s) of the student;
- the student's Individual Behaviour Support Plan (if they have one);
- the school's knowledge of the student's individual circumstances, including their family context;
- any information provided from the Queensland Police Commissioner to the Director-General; and
- the ability of the school to implement adequate controls and actions to reduce or manage the behaviour risk.

A risk assessment process is required prior to identifying an appropriate disciplinary response or intervention for students charged with or convicted of an offence, or are being considered for exclusion from certain or all state schools.

A risk assessment should also be completed for students whose behaviour has been identified as presenting such significant risk to themselves or others:

- that the planned use of restrictive practices is being considered; or
- the principal reasonably believes the individual may pose an unacceptable risk to the safety or wellbeing of members of the school community.

Risk assessment process

The Enterprise Risk Management Framework outlines a risk assessment process which has been incorporated into this tool and is contextualised below:

Principals should complete the [Risk evaluation form](#) on page 7 and [Responses for unmanaged/identified risk](#) on page 8 and ensure a signed copy is uploaded into the individual student's OneSchool Support record. Pages 2-6 provide guidance and instruction to complete the document.
