Sigmund Freud, His Personality, His Teaching, & His School Fritz Wittels, 1924

The Uncanny Nicholas Royle, 2003 This is the first book length study of the uncanny an important concept for contemporary thinking and debate across a range of disciplines and discourses including literature film architecture cultural studies philosophy psychoanalysis and queer theory Much of this importance can be traced back to Freud's essay of 1919 The uncanny where he was perhaps the first to foreground the distinctive nature of the uncanny as a feeling of something not simply weird or mysterious but more specifically as something strangely familiar As a concept and a feeling however the uncanny has a complex history going back to at least the Enlightenment Nicholas Royle offers a detailed historical account of the emergence of the uncanny together with a series of close readings of different aspects of the topic Following a major introductory historical and critical overview there are chapters on the death drive d j vu silence solitude and darkness the fear of being buried alive doubles ghosts cannibalism telepathy and madness as well as more applied readings concerned for example with teaching politics film and religion This is a major critical study that will be welcomed by students and academics but will also be of interest to the general reader

Jacques Lacan and the Adventure of Insight Shoshana Felman, 1987 Felman analyzes Lacan's investigation of psychoanalysis not as dogma but as an ongoing self critical process of discovery By focusing on Lacan's singular way of making Freud's thought new again Felman shows how this moment of illumination has become crucial to contemporary thinking and has redefined insight as such

On Freud's

Mourning and Melancholia Thierry Bokanowski, 2018-05-08 Both melancholia and mourning are triggered by the same thing that is by loss. The distinction often made is that mourning occurs after the death of a loved one while in melancholia the object of love does not qualify as irretrievably lost.

On Freud's Beyond the Pleasure Principle Salman Akhtar, Mary Kay O'Neil, 2018-05-08 Freud's *Beyond the Pleasure Principle* constitutes a major landmark and a real turning point in the evolution of psychoanalytic theory. Pushing aside the primacy of the tension discharge gratification model of mental dynamics, this work introduced the notion of a daemonic force within all human beings that slowly but insistently seeks psychic inactivity, inertia, and death. Politely dismissed by some as a pseudo biological speculation and rapturously espoused by others as a bold conceptual advance, death instinct became a stepping stone to the latter conceptualizations of mind's attacks on itself, negative narcissism, addiction to near death, and the utter destruction of meaning in some clinical situations. The concept also served as a bridge between the quintessentially Western psychoanalysis and the Eastern perspectives on life and death. These diverse and rich connotations of the proposal are elucidated in *On Freud's Beyond the Pleasure Principle*. Other consequences of Freud's 1920 paper, namely the marginalization of ego instincts and the upgrading of aggression in the scheme of things, are also addressed.

Pedagogy, Praxis, Ulysses Robert D. Newman, 1996 *Ulysses* as a touchstone for generating provocative ideas for innovation in teaching.

The Oxford Handbook of Undergraduate Psychology Education Dana Dunn, 2015 The *Oxford Handbook of Undergraduate Psychology Education* provides psychology educators, administrators, and researchers with up-to-date advice on best teaching practices, course content, teaching methods, and classroom management strategies, student advising, and professional and administrative issues.

Freud and Education Deborah P. Britzman, 2010-10-18 The concept of education, its dangers and promises, and its illusions and revelations threads throughout Sigmund Freud's body of work. This introductory volume by psychoanalytic authority Deborah P. Britzman explores key controversies of education through a Freudian approach. It defines how fundamental Freudian concepts such as the psychical apparatus, the drives, the unconscious, the development of morality, and transference have changed throughout Freud's oeuvre. An ideal text for courses in education studies, human development, and curriculum studies, *Freud and Education* concludes with new Freudian-influenced approaches to the old dilemmas of educational research, theory, and practice.

Augustine and Psychology Sandra Dixon, John Doody, Kim Paffenroth, 2012-12-21 The essays in *Augustine and Psychology*, edited by Sandra Lee Dixon, John Doody, and Kim Paffenroth, relate St. Augustine to the modern theory and practice of psychology in several ways. The contributors analyze Augustine's own examination of himself and occasionally others to see to what extent he himself was a doctor or practiced therapy in ways that we can recognize and appreciate. They find connections between his theories of memory and mind and modern theories of the same. They consider the influences and context in which he worked and how those affected him and his ideas.

of the mind and soul and lastly the contributors subject St Augustine to the scrutiny of modern psychoanalysis and critique such scrutiny where appropriate

Jesus, Paul and Matthew, Volume Two Andries Van Aarde, 2020-04-16 This book is the second of two volumes which reflect on the trend in biblical scholarship that contrasts the vision of the historical Jesus with that of the apostle Paul on the one hand and the vision of Paul with that of the evangelist Matthew on the other It argues that Jesus replaced the concept of politics of holiness with that of politics of compassion This means that the church as a community of Jesus followers forms a fictive family replacing a soteriology grounded in the biological family God's adoption of people as God's children is based on the potential of people to absorb the divine into their humanity This truism is to be found in the visions shared by the peasant Jesus the apostle Paul and the rabbi Matthew as well as in creedal Christianity The book concludes with autobiographical reflective notes analogous to the parabolic story of the travellers to Emmaus from Jerusalem Luke 24 and that of the African eunuch Acts 8 on his way back from Jerusalem to Africa The notes serve to consolidate the two volumes on Jesus Paul and Matthew and their messages of God's wisdom justice and mercy
