English Grammar in Motion. Learning Grammar in Context Jacques Sabiti,2021-03-18 Fachbuch aus dem Jahr 2021 im Fachbereich Anglistik Sonstiges Veranstaltung English for General Purpose Sprache Deutsch Abstract This is a self study book intended to help contextualize English grammar structures Learning grammar in context is more important as a language is learned for communication purposes This book contains twenty seven units Each unit tackles a particular grammar structure Not all grammar structures are handled Based on the author s teaching experience the structures under discussion were deemed more important than others They were selected responding to students needs students as second language learners suiting the teaching to their needs Those grammar structures are contextualized in self created dialogues and examples bank different sentences or passages from other scholars works Each unit is subdivided into different activities Some units have more activities than others depending on their weight But no unit counts less than three activities The first common activity is about reading self created dialogues to learn about how a given grammar structure is used in context The second common activity is about perusing different sentences and passages from other scholars publications The example banks serve as a proof to the reader that it is not only the writer who used the structures in context but also many other researchers It also ensures the reader that there is no difference between the way the writer uses the structures and other scholars Furthermore the example banks motivate students to learn English alongside with other subjects bearing in mind that they cannot fully grasp the subjects they are doing in English without mastering general English The last common activity is about using the same structure in the reader s own texts After reading through writer s dialogues and then perusing examples bank to see how other scholars used a given grammar structure the reader can produce his her own texts to check her his understanding of the structure under discussion Teaching Grammar in Context Guillermo San Martín Bragado,2012 En este trabajo se hace un an lisis acerca de la ense anza de la gram tica del ingl s Tools, Not Rules Tommy Thomason,Geoff Ward,2010 If you want to start an argument in a teachers lounge bring up the topic of how best to teach grammar There is a wide spectrum of opinion Traditionalists claim that we must explicitly teach grammar Students drill the basics and diagram sentences Sometimes their study and drills take the place of writing but these teachers claim

that good writing demands good grammar At the opposite end of the spectrum are teachers who claim that the best way to learn grammar is to write thereby being forced to use grammar in writing and editing They reason that students will learn grammar in the context of actually using it without all the drills and worksheets They trust the writing process to instill an appreciation for grammar instead of actually teaching it Teachers on the write to learn grammar side claim that students who are only taught grammar rules might pass tests but since they didn't learn in the context of writing they typically don't apply the rules when they write Grammar traditionalists say students in writing classes never learn grammar at all because it is not explicitly taught In *Tools Not Rules* authors Tommy Thomason and Geoff Ward take the middle ground position that grammar should be taught as part of the writing process Tommy Thomason is a veteran journalist and university journalism professor at TCU Geoff Ward is a well known Australian professor and associate dean from James Cook University in Townsville Both have written several books and work extensively with American teachers Publisher's website <http://www.eloquentbooks.com/ToolsNotRules/TeachingGrammarInTheWritingClassroom.html>
