end of animal life: a start for ethical debate Franck L.B. Meijboom, Elsbeth N. Stassen, 2023-08-07 Killing animals is common practice yet it is not morally neutral The end of animal life is related to many societal and ethical questions and concerns Questions such as how long should we continue to treat an animal before putting it down But also the question whether it could be legitimate to kill individual animals for the welfare of the herd or of future generations The ongoing public and academic discussions on these and on other well known questions like those related to the killing of animals for food or for scientific purposes show that there is no one standard evaluation of animal life This book is an edited volume that enables the reader to get a grip on that plurality of views with regard to animals It helps to deal with the many questions related to the end of animal life The chapters show how the plurality of views on killing animals is related to moral presuppositions by providing a clear overview of the ethical views on end of life decisions Furthermore the book contains a number of applied studies of the ethical questions related to killing animals in various practices including small animal practice wildlife management fishing and fish farming animal experimentation and livestock farming These chapters can help veterinarians scientists students policy makers and many other professionals working with animals to easily get a good overview of the issues at stake and may contribute to responsible decision making with regard to the end of animal life

Toward Community-Based Learning, 2020-01-29 Toward Community Based Learning contends that the ideal school offers the opportunity to understand reality in a way that connects teaching and education with conditions in the surrounding community and the student's life and concerns This view holds that problem solving requires an understanding and awareness of the whole which can be achieved through direct activities In this manner learning is linked to its natural context with ideal instruction being actively problem oriented holistic and life centered This thought provoking volume offers an essential and comprehensive picture of community based learning in the field of education The book deals with the history of community based learning as well as its present applications including its global successes and difficulties The authors
