**Spirituality** Zondervan, 2020-04-21 Bridging Theory and Practice in Children's Spirituality explores the different contexts methods and situations that influence and foster a child's spirituality and faith development Through a blend of theoretical understanding held in tension with practical application it equips those who are in or being prepared for the varied contexts where children are spiritually formed It represents a broad range of Christian expression writing from a Christ centered perspective that furthers the conversation about the next steps in children's spirituality and faith development Moving beyond the basics of faith nurture and what makes for effective ministry this resource deepens our understanding of the practices in children's lives by bringing together the best of theory and practice and includes contributions from Dr Scottie May Wheaton College Dr Kevin Lawson Biola University Dr Erik Carter Vanderbilt University John Roberto Vibrant Faith Dr Dana Kenamer Pemberton Abilene Christian University Dr Shirley Morgenthaler Concordia University Chicago Dr Holly Catterton Allen Lipscomb University Dr Robert Keeley Calvin College and Calvin Seminary Dr Mimi Larson Wheaton College Lacy Finn Borgo Renovar Institute and others Pastors professors seminary students and children's ministry leaders and practitioners all believe that nurturing a child's spiritual development is important Yet often they are unsure about which

current trends should be embraced This book will help equip these people with the grounding needed to evaluate trends and with specific suggestions for moving forward With short accessibly written chapters it helps pastors and leaders stay up to date with current trends and is an excellent resource for teaching in college and seminary classrooms The Praeger Handbook of Urban Education Philip M. Anderson,Kecia Hayes,Joe Kincheloe,Karel Rose,2006-03-30 Maintaining that urban teaching and learning is characterized by many contradictions this work proposes that there is a wide range of social cultural psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice It is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze understand and create Ten major sections cover the myriad issues of urban education as it exists today

**Men and Masculinities** Daniel Tillapaugh,Brian L. McGowan,2023-07-03 There continues to be much concern about the retention and persistence of men in college particularly Black Latinx and Native American men In addition queer and trans men also have found institutions to be problematic spaces For those who do persist we know that men are overrepresented in student conduct cases and engage in risky behaviors around alcohol drug use and sexual relationships Additionally we know that college men have historically avoided engaging in help seeking behaviors for their academic and personal success This book addresses the ways that theory can be put into practice for powerful transformative learning to support college men and their development This book synthesizes the research of the past three decades on college men to inform college student educators on the developmental needs of college men and illuminates how young men are socialized prior to their arrival to campus but perhaps more importantly how the collegiate environment becomes a training ground for the socialization of masculinities by students their peers and their environments Beyond that it sets out how practitioners can help young men understand why and how they have been socialized around their gender identity but also what their gender identity and sense of masculinity means for their future selves The book highlights programs and services designed to have college men engage with and dialogue around issues of hegemonic toxic or unhealthy aspects of masculinity These promising practices can offer college men opportunities to understand their power privilege and identity in ways that can be affirming and healthier leading to more life giving chances This is all the more important in the context of an ever evolving society where traditionally held norms and expectations around gender particularly masculinities are shifting This book equips student affairs staff faculty and administrators to better support college men s development It offers readers insights ideas and models for adapting and developing programs services and initiatives that may meaningfully meet the needs of specific student populations while recognizing that there is no one size fits all approach to this work *Handbook of Research on Teacher Education* Marilyn Cochran-Smith,Sharon Feiman-Nemser,John McIntyre,Kelly E.
