Rehearsing John F. Colson,2015-07-09 Following on the heels of his *Conducting and Rehearsing the Instrumental Music Ensemble* John F Colson takes students to the next level in conducting practice with *Rehearsing Critical Connections for the Instrumental Music Conductor* Colson draws together the critical connections for those seeking to become fully capable and self assured instrumental music conductors As he argues too often conductor training programs treat the problems and challenges of the rehearsal perhaps the single most critical element in any effort to achieve competency as a conductor as secondary Colson supplies the missing link for conductors looking for advice that allows them to complete their training for reaching complete competency as a conductor He demonstrates throughout the specific connections that the advanced conductor must know and regularly employ connections that few if any other works on the art of conducting address or bring together One connection for example illustrates the joining of music imagery inner

singing and conducting technique to score study Throughout these connections describe the nitty gritty of what it really takes to stand up in front of an instrumental music ensemble and successfully rehearse in order to achieve its highest performance level Also Colson argues and demonstrates the pitfalls of the commonly mistaken assumption among instrumental music conductors that score study alone is sufficient to prepare them for the rehearsal process This grave error is regularly belied by the fact that a number of other steps precede the actual rehearsal process from the use of instrumental pedagogy during the rehearsal process to teaching through performance concepts Colson s work addresses the entire rehearsing process thoroughly and authoritatively
