

**SPRINGER SERIES ON THE
TEACHING OF NURSING**

Teaching Nursing in the Era of Managed Care

BARBARA STEVENS BARNUM

The purpose of this material is to reflect on how the system of managed care has changed — or should change — a nursing faculty's practice and role function. This book is designed to help nursing faculty think through the changes in the health care delivery system resultant from the introduction of managed care. The objective of this exercise is to ensure that the preparation of clinical nursing students may be appropriate for today's world. Key components of managed care concepts and principles are addressed, including such related content areas as clinical pathways, case management, care-driven and resource-driven models of care, management by objectives, strategic management, and cost versus quality models of care.
