not only whether certain solutions and practices are good but also when and for whom they make sense The book covers a wide range of Western multilingual contexts and uncovers common themes and practices shared aims and preoccupations and often similar solutions within seemingly diverse contexts In addition to chapters based on empirical data this book offers theoretical contributions in the shape of a discussion of the appropriateness of L1 L2 terminology when discussing complex multilingual realities and looks at how the age factor works in classroom settings Resources in Education ,2001
