**Teachings from the Heart** S. L. Waldie, 2008-07-23 The word channel means a conduit for something to move from one destination to another When I first heard the term to channel or channeler I didnt really understand what it meant I soon found out that a channel is someone who allows himself or herself to be that conduit from one realm of the vast universe or universes to another This person or channel is usually carrying messages from others beyond our vibrational frequency here on earth These beings are unable to make contact without the use of this channels voice As I researched this I understood it better but could NEVER imagine myself to be one such person My life has always been one of spirit I have always been very intuitive what some have called psychic since I was a very small child This has never presented a problem for me I just accept it as who I am I have been doing readings since I was in my teens and began to know that the things I saw or felt were most often able to bring peace to others It was and is the greatest desire of my heart To bring and give peace joy and happiness to other people I guess to properly tell this story of how I began doing readings I need to take you back to around the age of three I spent a lot of time with my grandmother whom the family called crazy or out there somewhere but to me she was just a whole lot of love The family was restricted by their own beliefs and unable to really see her for who she truly was When I began to see people who werent there or hear voices from out of nowhere it was Grams who explained that I had the gift At three of course this meant absolutely nothing to me but the fact that she took it in stride and was even proud of me a chip off her block made me simply accept what went on around me Never was I frightened by the souls I saw or the voices I heard As you can see it just came naturally to me this ability to somehow know things Throughout my life I have used this gift for others I have been able to bring them peace about a loved ones passing enabled people to connect with their personal guides and hopefully brought a sense of understanding about the wonders of the spiritual world This way of being has brought me to this time of a new awakening for me Why it waited to occur until I was in my fifties will be understood later Now let me share with you a new growth along my journey In 2007 while in Happy Camp California doing some gold mining with my husband Bruce I met a remarkable woman named Annie She is undoubtedly one of the most spiritually balanced people I have ever known and she has led an amazing life That is her story to tell After speaking together she requested a reading from me and during this reading she told me that she had gotten a hit as she called her own spiritual inspirations This inspiration told her that I was to be a channel Of course I looked at her like she was

out of her mind ME No there had to be some mistake I had never even had a thought to being any more than what I already was and this had served me and others for many many years As I said I was able to bring a sense of closure or understanding to many with the messages I carried from loved ones who had passed on or from their own spiritual guides When Annie told me that she thought I would be a wonderful channel for those entities from other planets and universes I was very taken aback I guess it really wasn't a whole lot different than speaking with the deceased or people's personal guides except in the manner it occurred While doing a reading I was given images and feelings that helped me to understand the message that was to be given In Channeling your voice is actually used to give these messages and you truly become that conduit from one place in time to another At first I struggled with this When I went into my meditations I asked if this was truly to be my calling If it was I on

**Peaceful Action, Open Heart** Thich Nhat Hanh, 2005-01-09 Peaceful Action Open Heart shines 60 years of study and practice upon one of the crowning scriptures of the path of the Buddha and is destined to be known as one of the most significant writings by Thich Nhat Hanh The Lotus Sutra is one of the most revered of Mahayana sacred texts and is sometimes called the king of sutras Despite this fact there are very few commentaries in English available today Thich Nhat Hanh explores the Sutra's main theme that everyone has the capacity to become a Buddha and that Buddha nature is inherent in everything but he also uniquely emphasizes the Sutra's insight that Buddha nature is the basis for peaceful action Since we all will one day become a Buddha he says we can use mindfulness practices right now to understand and find solutions to current world challenges In his interpretation of the Sutra he suggests that if the practices views and insights of the Lotus Sutra would find application not only by individuals but also by nations it would

offer concrete solutions to transform individual suffering and the global challenges facing the world today Stamped with his signature depth of vision lucidity and clarity Thich Nhat Hanh's insights based on the wisdom of the Lotus Sutra invoke a wide range of contemporary topics and concerns such as the Palestinian Israeli war the threat of terrorism and the degradation of our environment In proposing radical new ways of finding peaceful solutions to universal contemporary conflicts he not only challenges the U N to change from an organization to a real organism working for peace and harmony in the world but also encourages all branches of all governments to act as Sangha In so doing he demonstrates the practical and direct applicability of this sacred text to today's concerns This book has been re released with a new title The earlier
