Holiness the Dalai Lama Journey Into Consciousness Charles Breaux, 1998 In the present book the author introduces the Tantric methods of Tibetan Buddhism and draws correlations between this practice and the teachings of Carl Jung In a clear concise style Breaux points out how many psychological truths are woven into the fabric of the Tantric doctrine The language of the Tantra is visionary abounding in symbols and metaphors produced spontaneously in the meditations of ancient yogis At the heart of tantra is the experience of a divine power within the human being that can be awakened The format of the book begins in the root chakra and follows the path of your psychological and spiritual continuum up through the chakras Each chapter includes a meditation practice employing Tibetan Tantric Deities and procedures Although not a substitute for a genuine Tantric teacher the book will enable readers to experience the tantra through suggested meditation You enter the light within when you step outside of your own shadow The basic drive to remember your essential nature surges beneath all your fears desires and preconceptions Although they approach this process from opposite sides of the world both Tantra and Jungian psychology aspire to fathom this mysterious process and create the necessary conditions so spiritual transformation can occur

The Gathering of Intentions Jacob P. Dalton,2016-03-29 The Gathering of Intentions reads a single Tibetan Buddhist ritual system through the movements of Tibetan history revealing the social and material dimensions of an ostensibly timeless tradition By subjecting tantric practice to historical analysis the book offers new insight into the origins of Tibetan Buddhism the formation of its canons the emergence of new lineages and ceremonies and modern efforts to revitalize the religion by returning to its mythic origins The ritual system explored in this volume is based on the Gathering of Intentions Sutra the fundamental root tantra of the Anuyoga class of teachings belonging to the Nyingma Ancient school of Tibetan Buddhism Proceeding chronologically from the ninth century to the present each chapter features a Tibetan author negotiating a perceived gap between the original root text the Gathering of Intentions and the lived religious or political concerns of his day These ongoing tensions underscore the significance of Tibet s elaborate esoteric ritual systems which have persisted for centuries evolving in response to historical conditions Rather than overlook practice in favor of philosophical concerns this volume prioritizes Tibetan Buddhism s ritual systems for a richer portrait of the tradition
