Planning Chinese Agriculture Kenneth R Walker, 2013-10-23 First Published in 1965 This short monograph is the first result of the author's decision in 1959 to study the Chinese economy. Special Operations Group Christophe Glasl, 2023-06-28 Chris Glasl joined Victoria Police at nineteen with one aim in mind: to become a member of the Special Operations Group. Ultra-fit and highly trained, the SOG are called to the most dangerous missions: hostage situations, gunmen on the loose, and risky mobile intercepts. After going through an incredibly gruelling elimination process, Chris joined the SOG in 1994, thinking he was becoming part of a unit that was untouchable, indestructible, and bonded so closely together they were a brotherhood like no other. He didn't find that brotherhood. Instead, Chris experienced a unit rife with bullying, lies, and betrayal. In combination with the dangerous missions they undertook and the pressure he experienced with each one, Chris needed a release valve, and he found it by taking drugs. It was the only way to switch off the adrenalin to sleep at night, to get through his days. And those days involved fatal shootings, a triple murder, and a 100 million dollar drug bust, to name just a few. This is the ultimate insider account of what it takes to be one of the toughest police officers in the world and the price it demands. It's a white-knuckle ride that you will never forget.

Village China Under Socialism and Reform Huaiyin Li, 2009-03-12 *Village China Under Socialism and Reform* offers a comprehensive account of rural life after the communist revolution, detailing villager involvement in political campaigns since the 1950s, agricultural production under the collective system, family farming, and non-agricultural economy in the reform, and everyday life in the family and community. Li's rich examination draws on original documents from local agricultural collectives, newly accessible government archives, and his own fieldwork in Qin village of Jiangsu province to highlight the continuities in rural transformation. Firmly disagreeing with those who claim that recent developments in rural China represent a radical break with pre-reform sociopolitical practices and patterns of production, Li instead draws a clear history connecting the current situation to ecological, social, and institutional changes that have persisted from the collective era.
