Memories of the Cultural Revolution Luo Ying,2015-11-30 At once a work of narrative lyricism and an act of personal courage this memoir in verse documents the human cost of a period of political turmoil in China s recent past Luo Ying the pen name of Huang Nubo a celebrated poet Forbes billionaire and mountain climber draws readers into the depths of the Cultural Revolution 1966 1976 by rendering its defining moments in his life with devastating precision and clarity The narrative poems that make up Memories of the Cultural Revolution combine the ardor of youthful experience with the cooler insight of mature reflection offering a nuanced picture of life in the midst of historic change The Great Proletarian Cultural Revolution marked a critical passage on China s road to modernity as momentous for the world as it was for one boy caught up in its throes In poetry that juxtaposes the political and the personal the social and the individual Luo Ying depicts a time when ultraleftist mass movements and factional struggles penetrated the deepest level of private daily life In bleak yet vivid portraits of his mother father classmates and coworkers he reveals how the period indelibly marred him I am a red guard just as I always was he writes Giving voice to the inner life of a man haunted by his experiences Memories of the Cultural Revolution bears witness to a traumatic time when ideology threatened to crush individuality Luo Ying s poetry stands as eloquent testimony to the power of the individual voice to endure in the face of dire social and historical circumstances

**Exploring Gender and Sikh Traditions** Doris R. Jakobsh,2021-09-01 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies The intersections of religion and gender are here explored based on an understanding that both are socially constructed Far from being static as so often presented in world religions textbooks religious traditions are constantly in flux responding to historical cultural and social contexts So too is the Sikh tradition in terms of practices ideologies rituals and notions of identity We here conclude that a Sikh tradition does not exist instead there are numerous forms thereof In this volume Sikhism is presented as a collection of Sikh traditions Gender studies in line

with women's liberation, masculine and feminist studies have long examined and have long deconstructed the patriarchy but also move to identify other subordinate dominant relations between individuals. Indeed, there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression. Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis, as evidenced by the varied contributions in this volume.

*The History of Art in Sui, Tang and Five Dynasties* Li Shi, The book is the volume of *The History of Art in Sui, Tang and Five Dynasties* among a series of books of *Deep into China Histories*. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c. 1600–1046 BC and the *Bamboo Annals* 296 BC describe a Xia dynasty c. 2070–1600 BC before the Shang but no writing is known from the period. The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046–256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty 206 BC–220 AD. Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing 1644–1912, which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War 1927–1949. China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion and foreign contact, form the basis of the modern culture of China.
