This chaos comes from the vastly different motivations and incentives between those with the vision and those with the money From fundraising paranoia to boardroom coups Zalman and Neumann train their inimitable voices on the gulf between what founders and investors promise to do and what they end up actually doing Founder vs Investor is the brutal truth from each side s perspective of the pitfalls of this tenuous relationship where bad blood can turn sure things into shattered dreams It is the only book written by insiders with the temerity to pull back the curtain on the world of high growth venture backed startups
