*The Sixth Sense of the Avant-Garde* Irina Sirotkina, Roger Smith, 2017-04-20 The touch and movement senses have a large place in the modern arts This is widely discussed and celebrated often enough as if it represents a breakthrough in a primarily visual age This book turns to history to show just how significant movement and the sense of movement were to pioneers of modernism at the turn of the 20th century It makes this history vivid through a picture of movement in the lives of an extraordinary generation of Russian artists writers theatre people and dancers bridging the last years of the tsars and the Revolution Readers will gain a new perspective on the relation between art and life in the period 1890 1920 in great innovators like the poets Mayakovsky and Andrei Bely the theatre director Meyerhold the dancer Isadora Duncan and the young men and women in Russia inspired by her lead and esoteric figures like Gurdjieff Movement and the turn to the body as a source of natural knowledge was at the centre of idealistic creativity and hopes for a new age for a new man and this was true both for those who looked forward to the technology of the future and those who looked back to the harmony of Ancient Greece The book weaves history and analysis into a colourful thoughtful affirmation of movement in the expressive life

Anton Chekhov Through the Eyes of Russian Thinkers Olga Tabachnikova, 2012-10-01 The collection is comprised of twelve scholarly essays written by leading Chekhov specialists from around the world each analysing an interpretation of Chekhov by one of three Russian thinkers of the Silver Age of Russian culture Vasili Rozanov Dmitrii Merezhkovskii and Lev Shestov It thus examines the hitherto under researched relationship between the origins and the results of the cultural phase that came to be known as the Silver Age and focuses specifically on the complex connections between Chekhov's legacy and the Russian culture of that period
