MYTH, MAGIC AND MYSTICISM IN THE AGE OF INFORMATION

"TechGnosis is stimulating and original, learned and readable. Erik Davis offers a wide-ranging and consistently thought-provoking guide to the hidden circuitry of the technological unconscious. Invaluable!" GREG DYER

Techgnosis Myth Magic And Mysticism In The Information Age

James E. Katz

Techgnosis Myth Magic And Mysticism In The Information Age:

Techgnosis Erik Davis,1998 From the dawn of self conscious humanity our inner life has been the province of religion and mysticism But as Erik Davis reveals as powerful as mythology and spirituality can be in illuminating our deepest selves it has largely been the successively emerging tools of our communications technologies from talking drums and papyrus scrolls to television and cyberspace that have actually reshaped the essence of who we are With keen perception Davis ranges widely from ancient Gnosticism to the worship of UFOs to uncover the myths and impulses that drive our technological culture where boundaries are dissolving between actual and virtual environments and where the edges of our selves are constantly being redrawn In TechGnosis Erik Davis uncovers the religious roots of contemporary infomania and uses his remarkable insights much as the cartographers of old used their provisional maps to probe the darkness ahead now full of cyberspace monsters and digital utopias

TechGnosis Erik Davis,2004 Techgnosis uncovers the hidden mystical and religious impulses that animate our contemporary obsessions with media and technology It is a wild ride chock full of curious characters esoteric information and visionary insights The book tells the story of the alchemical origins of electricity the occult dimension of computer games and the Zen of cybernetics It reminds us of the irrational even dreamlike underside of our supposedly rational machines Techgnosis was first published in 1998 and it is now a cult classic one of the key texts of the media underground It has been translated into five languages This updated edition will feature a new afterword placing the book in our moment

Magia Sexualis Hugh B. Urban,2006-10-04 Sexuality and the occult arts have long been associated in the western imagination but it was not until the nineteenth century that a large and sophisticated body of literature on sexual magic the use of sex as a source of magical power emerged This book the first history of western sexual magic as a modern spiritual tradition places these practices in the context of the larger discourse surrounding sexuality in American and European society over the last 150 years to discover how sexual magic was transformed from a terrifying medieval nightmare of heresy and social subversion into a modern ideal of personal empowerment and social liberation Focusing on a series of key figures including American spiritualist Paschal Beverly Randolph Aleister Crowley Julius Evola Gerald Gardner and Anton LaVey Hugh Urban traces the emergence of sexual magic out of older western esoteric traditions including Gnosticism and Kabbalah which were progressively fused with recently discovered eastern traditions such as Hindu and Buddhist Tantra His study gives remarkable new insight into sexuality in the modern era specifically on issues such as the politics of birth control the classification of sexual deviance debates over homosexuality and feminism and the role of sexuality in our own new world of post modern spirituality consumer capitalism and the Internet

Cyberculture: The Key Concepts David J. Bell,Brian D Loader,Nicholas Pleace,Douglas Schuler,2004-07-31 Fully cross referenced and with suggestions for further reading this is the only A Z guide available on this subject this book provides a wide ranging up to date overview of the fast changing and important world of cyberculture

Religion and Cultural Studies Susan L.

Mizruchi,2021-01-12 Americans have never been more religious than they are now at the dawn of the twenty first century By all reports attendance rates at traditional places of worship are high and rising the influx of new immigrant religions has revitalized standard faiths and drawn in those who had strayed from them Popular television shows like The Simpsons feature characters who go to church every Sunday and speak to God special events like the 1998 outdoor mass in Worcester Massachusetts for a comatose girl believed to have miraculous powers attract thousands of people This collection is both part of this ferment and an intellectual reflection upon it Religion and Cultural Studies features essays by major scholars from the fields of anthropology history literary criticism and religion in order to enrich critical discourse about religion and culture Despite the variety of disciplines represented by this group of scholars and the variety of cultures explored in their essays from fifteenth century Flemish asceticism and nineteenth century African American spiritualism to Russian blood libel trials and Alien Abduction Reports in the twentieth century their common ground is the question of religion s place in current American academic analysis and more broadly in American life today The volume s range of vocabulary and subject matter is aimed at vitalizing scholarly interest in the field of religion and cultural studies and deepening intellectual inquiry in the contemporary academy The contributors are Eytan Bercovitch Karen McCarthy Brown Gillian Feeley Harnik Richard Wightman Fox Jenny Franchot Giles Gunn Geoffrey Galt Harpham Bruce B Lawrence Jack Miles Susan L Mizruchi and Jonathan Z Smith As If Michael Saler,2012-01-09 Many people throughout the world inhabit imaginary worlds

communally and persistently parsing Harry Potter and exploring online universes These activities might seem irresponsibly escapist but history tells another story Beginning in the late nineteenth century when Sherlock Holmes became the world s first virtual reality character readers began to colonize imaginary worlds debating serious issues and viewing reality in provisional as if terms rather than through essentialist just so perspectives From Lovecraft s Cthulhu Mythos and Tolkien s Middle earth to the World of Warcraft and Second Life As If provides a cultural history that reveals how we can remain enchanted but not deluded in an age where fantasy and reality increasingly intertwine In Defence of Serendipity

Sebastian Olma,2016-12-27 In Defence of Serendipity is a lively and buccaneering work of investigative philosophy treating the origins of serendipity accident and sagacity both as riddles and philosophical concepts that can be put to a future political use Taking in Aristotle LSD Tony Blair and techno mysticism Olma challenges the prevailing faith in the benevolence of digital technology and the illegitimate equation of innovation and entrepreneurship arguing instead that we must take responsibility for the care of society s digital infrastructure and prevent its degeneration into an apparatus of marketing and finance For although there is nothing wrong with marketing and finance per se if they alone lead technological development free of any discretionary political interference the freedom to be exploited will be as much a part of the future as our ability to intervene freely in our lives will be a thing of the past **Routledge International Handbook of Charisma** José Pedro

Zúquete,2020-11-29 The Routledge International Handbook of Charisma provides an unprecedented multidimensional and

multidisciplinary comparative analysis of the phenomenon of charisma first defined by Max Weber as the irrational bond between deified leader and submissive follower. It includes broad overviews of foundational theories and experiences of charisma and of associated key issues and themes. Contributors include 45 influential international scholars who approach the topic from different disciplinary perspectives and utilize examples from an array of historical and cultural settings. The Handbook presents up to date concise thought provoking innovative and informative perspectives on charisma as it has been expressed in the past and as it continues to be manifested in the contemporary world by leaders ranging from shamans to presidents. It is designed to be essential reading for all students researchers and general readers interested in achieving a comprehensive understanding of the power and potential of charismatic authority in all its varieties subtleties dynamics and current and potential directions.

The Buddha in the Machine R. John Williams, 2014-06-24 The writers and artists described in this book are joined by a desire to embrace Eastern aesthetics as a means of redeeming Western technoculture. The assumption they all share is that at the core of modern Western culture there lies an originary and all encompassing philosophical error and that Asian art offers a way out of that awful matrix. That desire this book attempts to demonstrate has informed Anglo and even Asian American debates about technology and art since the late nineteenth century and continues to skew our responses to our own technocultural environment.

Religions of Modernity Stef Aupers, Dick Houtman, 2010-07-07 Religions of Modernity challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane. The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology. Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments. The classical theoretical accounts of modernity by Max Weber Emile Durkheim and others it is argued in the introductory chapter already hinted that there's a future for such religions of modernity.

Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen P. rna Adam Possamai Linda Woodhead and Dorien Zandbergen

The Communications Toolkit P. H. Longstaff, 2002 A toolkit of basic principles to help those in business industry law and other professions deal with a constantly changing communications sector. Although telephone cable broadcast print and Internet companies are changing at a fantastic rate the fundamentals of communications networks and competition have remained constant. This book provides the tools necessary to build lasting flexible strategies to survive and grow in these times of transition. Whether you are a business executive lawmaker policy analyst industrialist stock analyst lawyer or judge these tools will help you to solve real problems right away. The toolkit contains six tools essentially ways to view the workings of the communications sector from a larger more inclusive perspective. The tools draw on knowledge and concepts from communications engineering biology business and law. Tool 1

New Building Blocks presents the big picture of the communications sector Tool 2 Networks develops the fundamental parts and processes found in all networks Tool 3 Competition and Cooperation presents the basic characteristics shared by most processes in which two or more entities compete or cooperate to obtain a scarce resource Tool 4 The Three Visions of Convergence sorts out the many things people mean when they say convergence Tool 5 Convergence Theology shows how people's faith or lack of it in convergence influences their predictions for the future Finally Tool 6 Concentration Diversity focuses on the forces that drive things together and those that pull them apart The book also discusses how the tools can be used to understand and influence public policy issues

The Routledge Companion to Religion and Popular Culture John C. Lyden, Eric Michael Mazur, 2015-03-27 Religion and popular culture is a fast growing field that spans a variety of disciplines This volume offers the first real survey of the field to date and provides a guide for the work of future scholars It explores key issues of definition and of methodology religious encounters with popular culture across media material culture and space ranging from videogames and social networks to cooking and kitsch architecture and national monuments representations of religious traditions in the media and popular culture including important non Western spheres such as Bollywood This Companion will serve as an enjoyable and informative resource for students and a stimulus to future scholarly work

Computing Taste Nick Seaver, 2022-12-06 Prologue Open Plan Introduction Technology with Humanity Too Much Music Captivating Algorithms What Are Listeners Like Hearing and Counting Space Is the Place Parks and Recommendation Epilogue What Are We Really Doing Here

The Oxford Handbook of Music and Medievalism Stephen C. Meyer, Kirsten Yri, 2020-03-02 The Oxford Handbook of Music and Medievalism provides a snapshot of the diverse ways in which medievalism the retrospective immersion in the images sounds narratives and ideologies of the European Middle Ages powerfully transforms many of the varied musical traditions of the last two centuries Thirty three chapters from an international group of scholars explore topics ranging from the representation of the Middle Ages in nineteenth century opera to medievalism in contemporary video game music thereby connecting disparate musical forms across typical musicological boundaries of chronology and geography While some chapters focus on key medievalist works such as Orff's *Carmina Burana* or Peter Jackson's *Lord of the Rings* films others explore medievalism in the oeuvre of a single composer e.g. Richard Wagner or Arvo Pärt or musical group e.g. Led Zeppelin The topics of the individual chapters include both well known works such as John Boorman's film *Excalibur* and also less familiar examples such as Eduard Lalo's *Le Roi d'Ys* The authors of the chapters approach their material from a wide array of disciplinary perspectives including historical musicology popular music studies music theory and film studies examining the intersections of medievalism with nationalism romanticism ideology nature feminism or spiritualism Taken together the contents of the Handbook develop new critical insights that venture outside traditional methodological constraints and provide a capstone and point of departure for future scholarship on music and medievalism

Studying Christian Spirituality David B. Perrin, 2007-08-07 This book provides a new

introduction to the study of Christian spirituality exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology history sociology and anthropology Systematic and progressive it introduces the key approaches and shows how they relate to the understanding study and practice of spirituality Covering a vast amount of ground from traditional themes such as images of God spiritual direction and pilgrimage to more contemporary issues such as place and space cyberspace and postcolonialism the author takes an ecumenical inclusive stance allowing the book to be used in a wide variety of courses and across denominations

Magic in the Air James E. Katz, 2017-09-08 In this timely volume James E Katz a leading authority on social consequences of communication technology analyzes the way new mobile telecommunications affect daily life both in the United States and around the world *Magic in the Air* is the most wide ranging analysis of mobile communication to date Katz investigates the spectrum of social aspects of the cell phone s impact on society and the way social forces affect the use display and re configuration of the cell phone Surveying the mobile phone s current and emerging role in daily life Katz finds that it provides many benefits for the user and that some of these benefits are subtle and even counter intuitive He also identifies ways the mobile phone has not been entirely positive After reviewing these he outlines some steps to ameliorate the mobile phone s negative effects Katz also discusses use and abuse of mobile phones in educational settings where he finds that their use is eroding students participation in class even as it is helping them to cheat on exams and cut class Parents no longer object to their children having mobile phones in class in a post Columbine and 9 11 era instead they are pressing schools to change their rules to allow students to have their phones available during class And mobile phone misbehavior is by no means limited to students Katz finds that teachers are increasingly taking calls in the middle of class even interrupting their own lectures to answer what they claim are important calls In keeping with the book s title Katz explores the often overlooked psychic and religious uses of the mobile phone an area that has only recently begun to command scholarly interest *Magic in the Air* will be essential reading for communications specialists sociologists and social psychologists

The Nature of Magic Susan Greenwood, 2020-06-03 This book examines how and why practitioners of nature religion Western witches druids shamans seek to relate spiritually with nature through magical consciousness Magic and consciousness are concepts that are often fraught with prejudice and ambiguity respectively Greenwood develops a new theory of magical consciousness by arguing that magic ultimately has more to do with the workings of the human mind in terms of an expanded awareness than with socio cultural explanations She combines her own subjective insights gained from magical practice with practitioners in depth accounts and sustained academic theory on the process of magic She also tracks magical consciousness in philosophy myth folklore story telling and the hi tech discourse of postmodernity and asks important questions concerning nature religion s environmental credentials such as whether it is inherently ecological as many of its practitioners claim

Monstrous Liminality Robert G. Beghetto, 2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age

in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity s denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any

The Ashgate Research Companion to Paranormal Cultures Olu Jenzen, Sally R. Munt, 2016-03-23 Despite the much vaunted end of religion and the growth of secularism people are engaging like never before in their own spiritualities of life Across the West paranormal belief is on the rise *The Ashgate Research Companion to Paranormal Cultures* brings together the work of international scholars across the social sciences and humanities to question how and why people are seeking meaning in the realm of the paranormal a heretofore subjugated knowledge With contributions from the UK and other European countries the USA Australia and Canada this ground breaking book attends to the paranormal as a position from which to critique dominant forms of knowledge production and spirituality A rich exploration of everyday life practices textual engagements and discourses relating to the paranormal as well as the mediation technology and art of paranormal activity this book explores themes such

as subcultures and mainstreaming as well as epistemological methodological and phenomenological questions and the role of the paranormal in social change The Ashgate Research Companion to Paranormal Cultures constitutes an essential resource for those interested in the academic study of cultural engagements with paranormality it will appeal to scholars of cultural and media studies popular culture sociology cultural geography literature film and music *Design and Digital Interfaces*
Ben Stopher, John Fass, Eva Verhoeven, Tobias Revell, 2021-07-15 Are digital interfaces controlling more than we realise Can designers take responsibility and should they From domestic appliances like Siri and Amazon Echo to large scale Facebook manipulation and Google search prediction digital interfaces are ubiquitous in everyday life and their influences affect how people live feel and behave As they grow in complexity and increase integration into our lives we need to address the social ethical political and aesthetic responsibilities of those designing and creating the computer systems all around us Through discussion with cutting edge designers and thinkers and with international examples the authors explain how we need an expanded aesthetic critical and ethical awareness on the part of designers willing to act with sensitivity and understanding towards the people they design for and with This critical take on the process and implications of interface design looks beyond the mechanics of making and into the techno political realm of deliberate and unintended consequences

Techgnosis Myth Magic And Mysticism In The Information Age Introduction

In the digital age, access to information has become easier than ever before. The ability to download Techgnosis Myth Magic And Mysticism In The Information Age has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Techgnosis Myth Magic And Mysticism In The Information Age has opened up a world of possibilities. Downloading Techgnosis Myth Magic And Mysticism In The Information Age provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Techgnosis Myth Magic And Mysticism In The Information Age has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Techgnosis Myth Magic And Mysticism In The Information Age. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Techgnosis Myth Magic And Mysticism In The Information Age. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the

efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Techgnosis Myth Magic And Mysticism In The Information Age, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Techgnosis Myth Magic And Mysticism In The Information Age has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Techgnosis Myth Magic And Mysticism In The Information Age Books
