Comprehensive data covering camera, lens, exposure, developer and film is provided and in the case of the indoor subjects there is also a diagram showing the arrangement of the lighting employed. Every illustration is accompanied by a detailed critical analysis of the subject, and an additional feature is the inclusion of a number of striking male poses. The jacket of the book—a reproduction of a colour shot—is attractively printed in full colour.

## BODY IN ART

By Alexander Day

With 24 studies sketched and studied by Arthur Eddisworth, of the English Academy, New York. This collection of studies is primarily intended for the art student and teacher. The models have been selected and the poses arranged into the three "big" classes—classical, modern, and contemporary. Over 20 poses in the book give the student a study of the essential range of study. Portraits from all angles—static, reclining, seated and standing—are provided so that the essentials of form and balance can easily be grasped. Some of the studies have been made intentionally difficult so that as the student advances, he will find that they are his allies.
