Techniques and Problems of Theory Construction in Sociology Jerald Hage, 1972 *Techniques and Problems of Theory Construction in Sociology* Jerald Hage, 1972

Handbook of Sociological Theory Jonathan H. Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory *Foundations of Theory Construction in The Social Sciences* Dejo A. Abdulrahman, 2025-09-24 The book opens with a discussion of the philosophical foundations of theorising in the social sciences goes on to describe the components of theory and then compares deduction and induction as tools of research and theory construction with particular emphasis on conceptualisation the identification of properties and dimensions constructing theoretical statements linking properties and dimensions as well as developing and integrating categories in deduction and induction respectively The writer of the book has made a bold attempt to produce an overview of the needful for the production of quality academic research reports beginning with a discussion on theories and theory building methodology and data analysis Attempts are also made to demonstrate the link between theory theorising on one hand and on the other methodology analysis of data and production of quality research reports The book undeniably fills the gap needed at this point helping teachers students of sociology and other social science disciplines in higher institutions of learning to gain mastery of the production of profound social scientific works I heartily commend the book to readers across sub Sahara Africa and beyond Professor Olayiwola Erinsho PhD Toronto FNASA FSSAN **Handbook of Social Theory** George Ritzer, Barry Smart, 2003-07-26 The Handbook of Social Theory presents an authoritative and panoramic critical survey of the development achievement and prospects of social theory *Contemporary Sociological Theory*

Jonathan H. Turner, 2012-09-20 Written by award winning scholar Jonathan Turner Contemporary Sociological Theory covers the range of diversity of theory in nine theoretical traditions and variants of theoretical approaches in these traditions The result is a comprehensive review of present day theorizing in sociology covering functional evolutionary ecological conflict interactionist exchange structuralist cultural and critical theories and the major proponents of these theories Moreover for each theoretical tradition its origins are examined in a separate chapter with an eye to how classical theorists influenced the work of key contemporary scholars This book will serve as a valuable resource for those readers seeking in depth and comprehensive coverage of contemporary traditions in their historical contexts Unlike many texts coverage is comprehensive and deep The theories and their origins are examined in detail so that readers can fully understand the origins and present profile of theories in present day sociology Unlike many texts that skim over theories on the surface this book seeks to unlock for the reader their underlying structure of each theory The book is written in a modular format so that theories and traditions can be examined in any order and in many diverse combinations If desired only the contemporary theories can be read without attention to their historical contexts or the reverse is true if readers want to understand the historical origins of a particular theoretical tradition Since Jonathan Turner is an active theorist in his own right he brings to the book an appreciation of how theories are created as an insider rather than as only a commentator on theory As such he is able to bring out the underlying assumptions structure and form of a theory in new and interesting ways for casual readers and scholars alike

How to Build Social Science Theories Pamela J. Shoemaker, James William Tankard, Jr., Dominic L. Lasorsa, 2003-12-10 Click Additional Materials to read the foreword by Jerald Hage As straightforward as its title How to Build Social Science Theories sidesteps the well traveled road of theoretical examination by demonstrating how new theories originate and how they are elaborated Essential reading for students of social science research this book traces theories from their most rudimentary building blocks terminology and definitions through multivariable theoretical statements models the role of creativity in theory building and how theories are used and evaluated Authors Pamela J Shoemaker James William Tankard Jr and Dominic L Lasorsa intend to improve research in many areas of the social sciences by making research more theory based and theory oriented The book begins with a discussion of concepts and their theoretical and operational definitions It then proceeds to theoretical statements including hypotheses assumptions and propositions Theoretical statements need theoretical linkages and operational linkages this discussion begins with bivariate relationships as well as three variable four variable and further multivariate relationships The authors also devote chapters to the creative component of theory building and how to evaluate theories How to Build Social Science Theories is a sophisticated yet readable analysis presented by internationally known experts in social science methodology It is designed primarily as a core text for graduate and advanced undergraduate courses in communication theory It will also be a perfect addition to any course dealing with theory and research methodology across the social sciences Additionally professional researchers will

find it an indispensable guide to the genesis dissemination and evaluation of social science theories **Max Weber and the Methodology of the Social Sciences** Toby E. Huff, **Skills for Using Theory in Social Work** James A. Forte, 2014-02-05 Using theory research evidence and experiential knowledge is a critical component of good social work. This unique text is designed to help social work students and practitioners to integrate theorizing into practice demonstrating how to search for select and translate academic knowledge for practical use in helping people improve their lives and environments. Presenting 32 core skills **Skills for Using Theory in Social Work** provides a conceptual foundation a vocabulary and a set of skills to aid competent social work theorizing. Each chapter outlines the knowledge and action components of the skill and its relationship to core practice behaviours along with learning and reflection activities. The lessons are divided into four parts. Section one discusses foundational material including self identification as a theorist practitioner the deliberate use of the term theory and a social work approach to the selection of knowledge. Section two focuses on the adept use of theorizing skills. It covers identifying assumptions using concepts formulating propositions organizing theory elements inductively or deductively summarizing and displaying the elements of a theory gathering and organizing assessment information and communicating with clients and colleagues about tentative theories. Section three includes lessons preparing social workers for the construction of useful middle range theories including causal theories and interpretive theories and for testing and sharing these practical theories. Section four presents skills to develop critical thinking about theoretical knowledge. These include avoiding the misuse of theory judging a theory using scientific standards judging a theory by professional standards critiquing theory in its cultural and historical context and making judgments about the likely long term impact of a theory. This key text will help readers to demonstrate their expertise in reflective competent and theory informed practice. It is suitable for all social work students and practitioners particularly those taking practice theory and human behaviour in the social environment courses **Max Weber and Methodology of Social Science** T. Huff, 2017-07-05 Huff provides a rare full scale study of the origins and development of Max Weber's methodology which focuses on Weber's neglected early methodological essays that were not translated into English until the 1970s. He explores Weber's writings in light of developments in postempiricist philosophy of science and shows that Weber was well aware of the epistemological foundations of the descriptive psychology school whose intellectual heir was Husserl. This volume will help scholars and students understand in the broadest sense the issues central to the logic of social scientific explanation and will appeal to philosophers sociologists political scientists as well as scholars of Weber *Criminal Justice and Criminology Research Methods* Peter B. Kraska, John J. Brent, W. Lawrence Neuman, 2020-12-31 *Criminal Justice and Criminology Research Methods* Third Edition is an accessible and engaging text that offers balanced coverage of a full range of contemporary research methods. Filled with gritty criminal justice and criminology examples including policing corrections evaluation research forensics feminist studies juvenile justice crime theory and criminal justice theory this new edition

demonstrates how research is relevant to the field and what tools are needed to actually conduct that research Kraska Brent and Neuman write in a pedagogically friendly style yet without sacrificing rigor offering balanced coverage of qualitative quantitative and mixed methods With its exploration of the thinking behind science and its cutting edge content the text goes beyond the nuts and bolts to teach students how to competently critique as well as create research based knowledge This book is suitable for undergraduate and early graduate students in US and global Criminology Criminal Justice and Justice Studies programs as well as for senior scholars concerned with incorporating the latest mixed methods approaches into their research

Laufer, Freda Adler, Criminology has developed strong methodological tools over the past decades establishing itself as a competitive and sophisticated social science Despite and perhaps because of its emphasis on research design methodology and quantitative analysis criminology has had few significant advances in theory This is the first publication exclusively dedicated to the dissemination of original work on criminological theory It encourages theory construction and validation in existing criminological publications as well as furthering the free exchange of ideas propositions and postulates This volume is dedicated to a pioneer in criminology Donald Cressey and is especially noteworthy for its comparative and international dimension Contents G O W Mueller Whose Prophet Is Cesare Beccaria An Essay on the Origins of Criminological Theory John Braithwaite and Brent Fisse On the Plausibility of Corporate Crime Theory Raymond Paternoster and Charles R Tittle Parental Work Control and Delinquency A Theoretical and Empirical Critique J O Finckenauer Legal Socialization Theory A Precursor to Comparative Research in the Soviet Union Jeanette Covington Theoretical Explanations of Race Differences in Heroin Use Hans Joachim Schneider The Media World of Crime A Study of Social Learning Theory and Symbolic Interaction Alexander Yakovlov Epistemological Problems of Criminology John Braithwaite and Joan McCord The State of Criminology Theoretical Decay or Renaissance Joan McCord One Perspective on the State of Criminology **Contemporary**

Sociological Theory Doyle Paul Johnson, 2008-04-23 This volume is designed as a basic text for upper level and graduate courses in contemporary sociological theory Most sociology programs require their majors to take at least one course in sociological theory sometimes two A typical breakdown is between classical and contemporary theory Theory is perhaps one of the broadest areas of sociological inquiry and serves as a foundation or framework for more specialized study in specific substantive areas of the field In addition the study of sociological theory can readily be related to various aspects of other social science disciplines as well From the very beginning sociology has been characterized by alternative theoretical perspectives Classical theory includes the European founding figures of the discipline whose works were produced during the later half of the nineteenth century and the first couple of decades of the twentieth century plus early American theorists For most of the second half of the twentieth century a fairly high consensus has developed among American sociologists

regarding these major founders particularly with regard to the works of Durkheim and Weber in analyzing the overall society and of Simmel in analyzing social interaction processes Since the late 1960s and early 1970s the influence of Marx has also been recognized Recent decades have also witnessed an increased emphasis on the important contributions of several pioneering feminist perspectives in the early years of sociology Methods of Social Research Kenneth D. Bailey, 1994 An introduction for undergraduates to every stage of sociological research showing how to deal effectively with typical problems they might encounter The book is fully updated to include examples from the LA riots and the 1992 presidential elections

Advances in Criminological Theory William S. Laufer, Freda Adler, 2017-11-30 Criminology has developed strong methodological tools over the past decades establishing itself as a competitive and sophisticated social science Despite and perhaps because of its emphasis on research design methodology and quantitative analysis criminology has had few significant advances in theory This is the first publication exclusively dedicated to the dissemination of original work on criminological theory It encourages theory construction and validation in existing criminological publications as well as furthering the free exchange of ideas propositions and postulates This volume is dedicated to a pioneer in criminology Donald Cressey and is especially noteworthy for its comparative and international dimension **Sourcebook of Family Theory and Research** Vern L. Bengtson, 2005 Now available in paperback for classroom use This comprehensive text provides a rich source of perspectives on theorising about the family for scholars researchers and students Another of the book's strengths is the emphasis on multimethod approaches in family research The book covers an impressive range of topics and issues marital happiness adjustment of children in divorce marriages gay marriage sibling ties ethnic families of colour stepfamilies aggression culture work and family religion and social policy to name a few In summary this superb volume is highly recommended and amply reflects the many contemporary perspectives on the family Philip Siebler Monash University Victoria Sponsored by the National Council on Family Relations the Sourcebook of Family Theory and Research is the reference work on theory and methods for family scholars and students around the world This volume provides a diverse eclectic and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research The Sourcebook reflects an interactive approach that focuses on the process of theory building and designing research thereby engaging readers in doing theory rather than simply reading about it An accompanying website offers additional participation and interaction in the process of doing theory and making science Editors Vern L. Bengtson Alan C. Acock Katherine R. Allen Peggye Dilworth Anderson and David M. Klein have brought together a prominent group of diverse contributors ranging in race and ethnicity age and seniority and gender and sexual orientation The Sourcebook begins with a section that sets the context for future family research The subsequent sections explore changing family patterns changing family interactions within and across generations and families and larger social forces A concluding section discusses issues of teaching family theories and research Key Features Focuses on the process rather than the

outcomes of family theory and research methods Emphasizes the value of multi methods approaches in family research by integrating theory development with the development of research methods Differs from many other publications on family research by describing the development of new ideas rather than just summarizing existing findings The interactive Web site and the special feature boxes within the chapters engage readers with theory and methodology Boxed features include Case Studies Spotlights on Theory Spotlights on Methods and a Discussion and Extension sections Represents a Who s Who of family researchers with contributions from many of the best researchers in the family realm The Sourcebook will be an excellent addition to any academic library It is an authoritative reference for scholars and researchers in Human Development and Family Studies Sociology Social Work and Psychology In addition the Sourcebook can also be used in graduate courses on family theory and methodology

Philosophy of Social Science Mark Risjord, 2022-07-25 Philosophy of Social Science A Contemporary Introduction examines perennial questions of philosophy through engaging the empirical study of society Questions of normativity concern the place of values in social scientific inquiry Questions of naturalism concern the relationship between the natural and the social sciences And questions of reductionism ask how social institutions relate to the people who constitute them This accessible text offers a comprehensive overview of debates in the field with special attention to new research programs Topics include the relationship of social policy to social science interpretive research cognitive and evolutionary explanations intentional action explanation rational choice theory conventions and social norms joint intentionality causal inference and experimentation Detailed examples of social scientific research motivate the philosophical questions and illustrate the important concepts Treating philosophical commitments as implicit in social science students of the social sciences will benefit from its application of philosophical argument to methodological and theoretical problems The text argues that social science transforms philosophical questions and students of philosophy will benefit from its direct engagement with contemporary debates The Second Edition provides updates with the most recent literature and adds two new chapters one on modeling and one on the role of race and gender in the social sciences Key Updates to the Second Edition A new chapter on Modeling and Explaining which explores how models represent social systems and whether highly idealized models explain A new chapter on Race and Other Social Constructions capturing much of the recent empirical research and philosophical interest in the social construction of categories like race and gender Revised and updated chapters throughout clarifying earlier presentations and bringing discussions from the First Edition into line with new research Updated annotated Further Reading lists which now include relevant publications from 2013 to 2022

Knowledge Evolution and Societal Transformations Jerald Hage, 2020-04-30 Knowledge evolution punctuates the previous equilibrium of society and requires us to develop adaptive solutions One new rule is that as the discovery of new knowledge grows more difficult more complex organizational and institutional arrangements have to be adopted Knowledge growth is accelerating because not only are there more creative individuals and organizations developing

radical innovations but also innovative regions are facilitating both of these trends The discussion of four social regions and the kinds of selves produced help explain partisan divides and integrate the social psychological literature The growth in knowledge produces two kinds of social changes In the nature of the social structure and the kinds of institutional problems that have to be solved The discussion of changes in the stratification system in the choice of organizational form and in the spread of inter organizational networks with tight connections heterogeneous social capital allows us to update Marx Weber and Durkheim The new adaptive problems include growing inefficiencies in labor product and public markets and the failure of many existing programs The proposed solutions are the creation of coordinated systemic networks in each of these areas which integrates the comparative institutional literature neoclassical economics and political science
