A Century of Revolution John Foran, 1994 This volume offers a much needed look into the historical social and political developments leading up to the Iranian revolution Bringing together a group of scholars historians and social scientists most of them Iranian in origin the book documents an extraordinary revolutionary heritage that predates this century

Religion and Politics in the Middle East Robert D. Lee, 2018-04-19 This innovative book analyses the relationship between religion and politics in the Middle East through a comparative study of five countries Egypt Israel Turkey Iran and Saudi Arabia Robert D Lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture In each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle Among the questions the book confronts Is secularization a necessary prerequisite for democratic development How is it and why is it that religion and politics are so deeply entangled in these five countries And why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes The book argues that the nature of religious organization and practice in the Middle East must be understood in the context of individual nation states The second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in Saudi Arabia Earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context The second edition of Religion and Politics in the Middle East is a robust addition to courses on the Middle East

Library, 1963 *Bibliography of Periodical Literature on the Near and Middle East* , 1970 *Islam as Power* Bianka Speidl, 2020-12-03 Providing an in depth and extensive analysis of the concept of power as articulated by Muhammad Husayn Fadlallah 1935 2010 this case study analyses the systemic conceptualisation of power and his argumentation of sacralising Islamised power The volume also offers a quick overview of how the concept was understood and articulated by other Shi ite jurists such as Ayatollah Khomeini Examining Fadlallah s oeuvre in particular his seminal book *Islam and the Logic of Power* al Islam wa mantiq al quwwa this book focuses on the narrative itself which played a central role in the radical transformation that occurred in the Shi te concept of empowerment and its recognition as a necessity The analysis of Fadlallah s conceptualisation and argumentation illustrates the mechanism of sacralising righteous power as well as the means of gaining it Fadlallah reinterpreted Shi sm as a project of empowerment to initiate and sustain an impulse of power amongst the Lebanese Shi tes in the most critical moment of modern Lebanese history Dealing with the concept of power in Shi te political thought from a theoretical perspective the study has an innovative approach that offers an insight into how the transformative narrative is constructed and what makes it convincing Shedding light on the content and logical structure

of Fadlallah's argumentation this volume will be of interest to scholars and students researching contemporary politics Islam and the Middle East *Media, Culture and Society in Iran* Mehdi Semati, 2007-09-24 Arguing that existing perspectives on contemporary Iran have not fully grasped the significant role of culture in Iran this book examines modern culture and media in Iran through a wide range of topics **Qatar** Mehran Kamrava, 2015-06-15 The Persian Gulf state of Qatar has fewer than 2 million inhabitants virtually no potable water and has been an independent nation only since 1971 Yet its enormous oil and gas wealth has permitted the ruling al Thani family to exert a disproportionately large influence on regional and even international politics Qatar is as Mehran Kamrava explains in this knowledgeable and incisive account of the emirate a tiny giant although severely lacking in most measures of state power it is highly influential in diplomatic cultural and economic spheres Kamrava presents Qatar as an experimental country building a new society while exerting what he calls subtle power It is both the headquarters of the global media network Al Jazeera and the site of the U S Central Command's Forward Headquarters and the Combined Air Operations Center Qatar has been a major player during the European financial crisis it has become a showplace for renowned architects several U S universities have established campuses there and it will host the FIFA World Cup in 2022 Qatar's effective use of its subtle power Kamrava argues challenges how we understand the role of small states in the global system Given the Gulf state's outsized influence on regional and international affairs this book is a critical and timely account of contemporary Qatari politics and society **The Political Development of the Kurds in Iran** F. Koochi-Kamali, 2003-09-30 This book looks at Kurdish Nationalism in Iran and examines the links between the structural changes in the Kurdish economy and its political demands Farideh Koochi Kamali argues that the transition of the nomadic tribal society of Kurdistan to an agrarian village society was the beginning of a process by which Kurds saw themselves as a community of homogenous ethnic identity The political movements of Kurds in Iran are discussed to illustrate that the different phases of economic development of Kurdish society played a great role in determining the way in which Kurds expressed their political demands for independence *Triumph and Despair* Mehran Kamrava, 2022-11-07 *Triumph and Despair* tells the dramatic story of post revolutionary Iran's first four decades from its establishment in 1979 until today The revolutionary coalition that overthrew the monarchy was at once democratic populist and Islamic The Islamists and the Khomeinists in particular were able to capitalise effectively on prevailing conditions on the ground to frame the new republic's constitution capture nascent institutions and consolidate their power by eliminating opponents through a reign of terror Once the war with Iraq was over and after the death of the new order's charismatic founder Ayatollah Khomeini the Islamic Republic was consolidated first by tweaking its institutional arrangements and then by fostering economic development and post war reconstruction A reformist interlude then followed reversed unceremoniously by a return of populism and a broader authoritarian retrenchment Today Iran remains at odds with itself its economy too deeply political to yield meaningful developmental results its foreign relations too conflicted to allow it a productive place in the

community of nations As Iran's nationalities and its women and youth carve out spaces for themselves in the broader narrative competing identities religious national and otherwise abound After forty years the Islamic Republic remains a country in search of itself

Higher Education in the Gulf States Christopher Davidson, Peter Mackenzie Smith, 2012-08-01 Nowhere in the world is university education expanding as rapidly as in the six member state of the Gulf Cooperation Council In two generations the region has gone from having the Middle East's least educated population to boasting a younger generation whose educational achievements are approaching Organisation for Economic Co-operation and Development OECD standards This unique study with contributions by key decision makers charts this dramatic development exploring the challenges faced and placing accomplishments within the social economic and political context of the region

The Unthinkable Revolution in Iran Charles Kurzman, 2005-09-06 The shah of Iran Mohammad Reza Pahlavi would remain on the throne for the foreseeable future This was the firm conclusion of a top secret CIA analysis issued in October 1978 One hundred days later the shah despite his massive military fearsome security police and superpower support was overthrown by a popular and largely peaceful revolution But the CIA was not alone in its myopia as Charles Kurzman reveals in this penetrating work Iranians themselves except for a tiny minority considered a revolution inconceivable until it actually occurred Revisiting the circumstances surrounding the fall of the shah Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general As one Iranian recalls The future was up in the air Through interviews and eyewitness accounts declassified security documents and underground pamphlets Kurzman documents the overwhelming sense of confusion that gripped pre-revolutionary Iran and that characterizes major protest movements His book provides a striking picture of the chaotic conditions under which Iranians acted participating in protest only when they expected others to do so too the process approaching critical mass in unforeseen and unforeseeable ways Only when large numbers of Iranians began to think the unthinkable in the words of the U.S. ambassador did revolutionary expectations become a self-fulfilling prophecy A corrective to 20/20 hindsight this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect
