Study Guide to Accompany Sociology Brian J. Jones,1995 Back to Sociological Theory Nicos P Mouzelis,2016-07-27 Nicos Mouzelis argues against a marked tendency in present day sociology to conflate philosophy and sociological theory In trying to demonstrate the relative autonomy and specific logic of sociological theorising he draws from a variety of theoretical traditions in order to construct a set of interrelated concepts useful for bridging the gulf between macro and micro sociologies Drawing examples from the sociology of development and from the theory of organisations the author shows concretely how the conceptual framework proposed can help the researcher to avoid both the reification of macro institutional structures and their reduction to the intersubjective understandings of micro actors **The Historic Turn in the Human Sciences** Terrence J. McDonald,1996 Eleven essays that probe the historical project in a wide range of disciplines *Sociological Theory: What Went Wrong?* Nicos Mouzelis,2003-09-02 Written with precision and clarity this is a compelling analysis of the central problems of sociological theory today and of the means to resolve them Argues that we should build on ideas from the 50s and 60s and not dismiss them **Feudal America** Vladimir Shlapentokh,Joshua Woods,2011-01-17 Do Americans live in a liberal capitalist society where evenhanded competition rules the day or a society in which big money private security and personal relations determine key social outcomes Vladimir Shlapentokh and Joshua Woods argue that the answer to these questions cannot be found among the conventional models used to describe the nation Offering a new analytical tool the authors present a provocative explanation of the nature of contemporary society by comparing its essential characteristics to those of medieval European societies Their feudal model emphasizes five elements the weakness of the state and its inability to protect its territory guarantee the security of its citizens and enforce laws conflicts and collusions between and within organizations that involve corruption and other forms of illegal or semilegal actions the dominance of personal relations in political and economic life the prevalence of an elitist ideology and the use of

private agents and organizations for the provision of safety and security Feudal America urges readers to suspend their forward thinking and futurist orientations question linear notions of social and historical progression and look for explanations of contemporary social problems in medieval European history
