Sociology for the Twenty-first Century Janet L. Abu-Lughod, 1999 These original essays by eminent sociologists probe issues of central importance to North American societies in the twenty first century The chapters in part 1 revise theory and methods to comprehend the economic and political institutions that increasingly dominate the lives of individuals and groups arguing that these giants must be made more democratically accountable Part 2 explores the social effects that growing globalization transnationalization and information technologies are having on politics economics and the environment The final chapters compare how new immigrants from increasingly diversified backgrounds are being absorbed in Canada and the United States exploring the impact that immigrants are having on preexisting ethnic minorities and on the dominant political culture While it is a major attempt to refocus the discipline of sociology the book s clear nontechnical style and its attention to issues of central concern to all citizens make it also highly accessible to nonspecialists Contributors are Janet L. The Moralization of the Markets Christoph Henning, 2017-07-12 Nothing affects the modern economy and society more than decisions made in the market place especially but not only decisions made by consumers Although it is not startling to suggest that decisions made in production are affected by choices consumers make consumers have long been viewed not only by academic economists as individual isolated rational actors that make or refrain from purchases purely on the basis of narrow financial considerations Markets are not and never were morally neutral Market relations have always had an often taken for granted moral underpinning The moralization of the markets refers to the dissolution and replacement of the conventional moral underpinnings of market conduct for example in the music market financial markets and corporate governance It further implies not only the heightened importance of new ethical precepts but the significant change in the role of moral ideals in market behavior These profound transformations of economic conduct are accompanied and co determined by societal conflicts The moralization of markets represents thus a new stage in the social evolution of markets The book is divided into four parts in which the twelve chapters written by contributors from different social science disciplines deal with the context of the moralization of the markets the major social institutions and present case studies that examine European and American attitudes and behavior towards tobacco and GMO expansion of the private and ethics in business and how workers respond to the new corporate norms This volume will be of interest to sociologists economists social scientists and the general consumer alike

Remaking New York William Sites, 2003

The New Laws of Love Marie Bergström, 2021-12-21 Online dating has become a widespread feature of modern social life In less than two decades seeking partners through commercial intermediaries went from being a marginal and stigmatized practice to being a common activity How can we explain this rapid change and what does it tell us about the changing nature of love and sexuality In contrast to those who praise online dating as a democratization of love and those who condemn it as a commodification of intimacy this book tells a different story about how and why online dating became big The key to understanding the growing prevalence of digital dating lies in what Marie Bergström calls the privatization of intimacy Online dating takes courtship from the public to the private sphere and makes it a domestic and individual practice Unlike courtship in traditional settings such as school work and gatherings of family and friends online dating makes a clear distinction between social and sexual sociability and renders dating much more discrete Apparently banal this privatizing feature is fundamental for understanding both the success and the nature of digital matchmaking Bergström also sheds light on the persisting inequalities of intimate life showing that online dating is neither free nor fair it has its winners and losers and it differs significantly according to gender age and social class Drawing on a wide range of empirical material this book challenges what we think we know about online dating and gives us a new understanding of who why and how people go online to seek sex and love

Puritan Conquistadors Jorge Cañizares-Esguerra, 2006 The book demonstrates that a wider Pan American perspective can upset the most cherished national narratives of the United States for it maintains that the Puritan colonization of New England was as much a chivalric crusading act of Reconquista against the Devil as was the Spanish conquest

Global Labor Migration Eileen Boris, Heidi Gottfried, Julie Greene, Joo-Cheong Tham, 2022-12-27 Around the world hundreds of millions of labor migrants endure exploitation lack of basic rights and institutionalized discrimination and marginalization What dynamics and drivers have created a world in which such a huge and rapidly growing group toils as marginalized men and women existing as a lower caste institutionally and juridically In what ways did labor migrants

shape their living and working conditions in the past and what opportunities exist for them today Global Labor Migration presents new multidisciplinary transregional perspectives on issues surrounding global labor migration The essays go beyond disciplinary boundaries with sociologists ethnographers legal scholars and historians contributing research that extends comparison among and within world regions Looking at migrant workers from the late nineteenth century to the present day the contributors illustrate the need for broader perspectives that study labor migration over longer timeframes and from wider geographic areas The result is a unique much needed collection that delves into one of the world s most pressing issues generates scholarly dialogue and proposes cutting edge research agendas and methods Contributors Bridget Anderson Rutvica Andrijasevic Katie Bales Jenny Chan Penelope Ciancanelli Felipe Barradas Correia Castro Bastos Eileen Boris Charlie Fanning Judy Fudge Jorge L Giovannetti Torres Heidi Gottfried Julie Greene Justin Jackson Radhika Natarajan Pun Ngai Bastiaan Nugteren Nicola Piper Jessica R Pliley Devi Sacchetto Helen Sampson Yael Schacher Joo Cheong Tham and Matt Withers Daughters of the Tharu Mary Ann Maslak,2003-12-16 This book explores the complex structural institutions in society individual attitudes towards beliefs about and values of those institutions and the process by which the relationship between the social structure and individual agency conditions and governs girls educational participation in Nepal

Engendering Revolution Rachel Elfenbein,2019-12-01 In 1999 Venezuela became the first country in the world to constitutionally recognize the socioeconomic value of housework and enshrine homemakers social security This landmark provision was part of a larger project to transform the state and expand social inclusion during Hugo Ch vez s presidency The Bolivarian revolution opened new opportunities for poor and working class or popular women s organizing The state recognized their unpaid labor and maternal gender role as central to the revolution Yet even as state recognition enabled some popular women to receive public assistance it also made their unpaid labor and organizing vulnerable to state appropriation Offering the first comprehensive analysis of this phenomenon Engendering Revolution demonstrates that the Bolivarian revolution cannot be understood without comprehending the gendered nature of its state society relations Showcasing field research that comprises archival analysis observation and extensive interviews these thought provoking findings underscore the ways in which popular women sustained a movement purported to exalt them even while many could not access social security and remained socially economically and politically vulnerable Faith Seeking Action Gregory P. Leffel,2007-06-01 In Faith Seeking Action author Gregory Leffel links a description of the church as a global movement with a description of contemporary social movements that are actively challenging today s societies such as the environmental global justice and identity movements Not surprisingly Christian communities and communities of social activists share much in common as they each work to enrich their societies It is natural then to ask what missionally concerned Christians may learn from social movements about the public role of their churches the connection of their beliefs to social change and the mobilization of their people It can also be asked how these often divided communities may find ways to collaborate around

common actions rooted in such shared values as peace justice life and the integrity of the environment Building on growing interest in the field of missiology and its missional church concept Leffell has created a dialog between the church as a social actor and social movements Along with introducing movement theory to mission studies Leffell introduces a new way of addressing the issues involved in the church s engagement with society a concept he calls missio ecclesiology Of interest to those seeking vital ways to live out their faith in the world missiologists missional church leaders and street level workers alike this work fuels fresh thinking about the church s role in cultural and social change
