Treatment of Soft Tissue Sarcomas H.M. Pinedo,J. Verweij,2012-12-06 One of the major advances of the last decade concerning the treatment of patients with soft tissue sarcomas is that an increased number of patients are being discussed in multidisciplinary teams prior to the initial treatment The present volume on soft tissue sarcomas in the series Cancer Treatment and Research reflects the multidisciplinary approach with a focus on recent developments The availability of new histopathologic techniques has reduced the number of unclassified sarcomas and has further increased the importance of the histopathologist in providing estimates of the prognosis of the patient as well as data for the planning of treatment strategy Further data for this strategy will be provided by diagnostic imaging In this field the role of magnetic resonance imaging has been further defined Of utmost importance is the recent trend toward consensus in staging The modification of the staging system of the American Joint Commission for Cancer Staging and End Results Reporting brings the possibility of a single staging system within reach in the next decade As surgery still provides the only chance for cure the importance of being the most sparing as possible is obvious For this reason radiotherapy has been applied with success The introduction of relatively new radiation techniques is therefore being observed with interest

Treatment of Bone and Soft Tissue Sarcomas Per-Ulf Tunn,2008-12-28 Bone and soft tissue sarcomas represent only about 2% of all malignancies however their treatment with the goal of curing the patient while preserving the functionality of the affected body part can unlike other malignancies only be successful with therapy concepts devised by interdisciplinary teams This volume provides an extensive up to date overview of the specific diagnostics and current treatment standards of these rare entities presenting the various limb sparing modalities for patients with bone and soft tissue sarcomas with special regard to innovative reconstructive options The evaluation of quality of life based on validated scores and the individual methods of coping with the illness through creative artistic projects are also acknowledged and integrated in the whole concept
