Lorrie Faith Cranor, Steven S. Wildman, 2003-08-29 Contributors to this volume explore the dynamics of new communications technologies and public policy from TPRC 2002 The contributors to this volume examine issues raised by the intersection of new communications technologies and public policy in this post boom post bust era Originally presented at the 30th Research Conference on Communication Information and Internet Policy TPRC 2002 traditionally a showcase for the best academic research on this topic their work combines hard data and deep analysis to explore the dynamic interplay between technological development and society The chapters in the first section consider the ways society conceptualizes new information technologies and their implications for law and policy examining the common metaphor of cyberspace as place alternative definitions of the Internet the concept of a namespace and measures of diffusion The chapters in the second section discuss how technological change may force the rethinking of legal rights topics considered include spectrum rights intellectual property copyright and paracopyright and the abridgement of constitutional rights by commercial rights in ISP rules Chapters in the third and final section examine the constant adjustment and reinterpretation of regulations in response to technological change considering among other subjects liability regimes for common carriers and the 1996 detariffing rule privacy and enhanced 911 and the residual effect of state ownership on privatized telecommunication carriers The policy implications of Rethinking Rights and Regulations are clear major institutional changes may be the necessary response to major advances in telecommunications technology **Searching the Law, 3d Edition** Frank Bae, Edward Bander, Francis Doyle, Joel Fishman, Paul Richert, 2021-12-13

Intellectual Property Law and History Steven Wilf, 2017-07-05 Intellectual property has become a dominant feature of our knowledge based economy in recent years but how has property rights in intangible items developed This book brings together for the first time exemplary scholarship with diverse approaches to the history of United States intellectual property protection including trade secrets trademark copyright and patent law These articles written by leading experts in the field and often challenging conventional narratives underscore the importance of historical perspectives for understanding how an extensive evolving framework for the regulation of knowledge emerged in the modern period By tracing intellectual property from an historical perspective not merely providing justifications in philosophy or economics in the abstract this book draws upon the past to address contemporary debates over such varied topics as access to knowledge policing copyright infringement whether employees should own the products of their minds the role of national borders in an age of digital information and the very future of intellectual property as stakeholders and consumers contest the extent of its legal protection The Patent Crisis and How the Courts Can Solve It Dan L. Burk, Mark A. Lemley, 2009-08-01 Patent law is crucial to encourage technological innovation But as the patent system currently stands

diverse industries from pharmaceuticals to software to semiconductors are all governed by the same rules even though they innovate very differently The result is a crisis in the patent system where patents calibrated to the needs of prescription drugs wreak havoc on information technologies and vice versa According to Dan L Burk and Mark A Lemley in *The Patent Crisis and How the Courts Can Solve It* courts should use the tools the patent system already gives them to treat patents in different industries differently Industry tailoring is the only way to provide an appropriate level of incentive for each industry Burk and Lemley illustrate the barriers to innovation created by the catch all standards in the current system Legal tools already present in the patent statute they contend offer a solution courts can tailor patent law through interpretations and applications to suit the needs of various types of businesses *The Patent Crisis and How the Courts Can Solve It* will be essential reading for those seeking to understand the nexus of economics business and law in the twenty first century

Internet and the Law Aaron Schwabach, 2014-01-15 The world of Internet law is constantly changing and is difficult to follow even for those for whom doing so is a full time job This updated everything you need to know reference removes the uncertainty Internet and the Law Technology Society and Compromises Second Edition is the go to source for anyone who needs clear explanations of complex legal concepts related to online practices and content This wide ranging alphabetical reference explores diverse areas of law including territorial jurisdiction and taxation that are relevant to or affected by advances in information technology and the rise of the Internet Particular emphasis is placed on intellectual property law and laws regarding freedom of expression The Internet as this book shows raises questions not only about how to protect intellectual creations but about what should be protected Entries also discuss how the Web has brought First Amendment rights and free expression into question as society grapples with attempts to control leaks and to restrict content such as pornography spam defamation and criminal speech

Regulating the Global Information Society Christopher Marsden, 2005-07-27 An outstanding line up of contributors explore the regulation of the internet from an interdisciplinary perspective In depth coverage of this controversial area such as international political economy law politics economics sociology and internet regulation *Regulating the Global Information Society* covers the differences between both US and UK approaches to regulation and establishes where policy is being made that will influence the future direction of the global information society from commercial democratic and middle ground perspectives

A Socio-Legal Theory of Money for the Digital Commercial Society Israel Cedillo Lazcano, 2024-02-22 This book poses the question do we need a new body of regulations and the constitution of new regulatory agents to face the evolution of money in the Fourth Industrial Revolution After the Global Financial Crisis and the subsequent introduction of Distributed Ledger Technologies in monetary matters multiple opinions claim that we are in the middle of a financial revolution that will eliminate the need for central banks and other financial institutions to form bonds of trust on our behalf In contrast to these arguments this book argues that we are not witnessing a revolutionary expression but an evolutionary one that we can trace back to the very origin of money

Accordingly the book provides academics regulators and policy makers with a multidisciplinary analysis that includes elements such as the relevance of intellectual property rights which are disregarded in the legal analysis of money Furthermore the book proposes the idea that traditional analyses on the exercise of the *lex monetae* ignore the role of inside monies and technological infrastructures developed and supported by the private sector as exemplified in the evolution of the cryptoassets market and in cases such as *Banco de Portugal v Waterlow Sons* The book puts forward a proposal for the design and regulation of new payment systems and invites the reader to look beyond the dissemination of individual Distributed Ledger Technologies such as Bitcoin

Consumer Protection in the Age of the 'Information Economy' Jane K. Winn, 2013-01-28 This volume considers the impact of technological innovation on the foundations of consumer advocacy contracting behaviour control over intellectual capital and information privacy A unique and timely perspective on these issues is presented by internationally renowned experts who provide novel approaches to the question of what consumer protection might consist of in the context of technological innovation

Legal Issues Relating to Free and Open Source Software Graham Bassett, 2003 Examines the problems of asserting intellectual property rights in the field of Information Technology as it affects software programs and the public domain and the rights of open access such as the Linux operating system The issues featured in this volume are directly relevant to all users and interested parties

Electronic Consumer Contracts in the Conflict of Laws Zheng Sophia Tang, 2015-10-22 The second edition of this highly recommended work addresses the interaction between conflict of laws dispute resolution electronic commerce and consumer contracts In addition it identifies specific difficulties that conflicts lawyers and consumer lawyers encounter in electronic commerce and proposes original approaches to balance the conflict of interest between consumers access to justice and business efficiency The European Union has played a leading role in this area of law and its initiatives are fully explored It pays particular attention to the most recent development in collective redress and alternative online dispute resolution By adopting multiple research methods including a comparative study of the EU and US approach historical analysis of protective conflict of laws doctrinal analysis of legal provisions and economic analysis of law it provides the most comprehensive examination of frameworks in cross border consumer contracts

Rethinking Intellectual Property Gustavo Ghidini, 2018 Intellectual property law is built on constitutional foundations and is underpinned by the twin freedoms of freedom of expression and freedom of economic enterprise In this thoughtful evaluation Gustavo Ghidini offers up a reconstruction of the core features of each intellectual property paradigm including patents copyright and trademarks suggesting measures for reform to allow intellectual property to become socially beneficial for all
