Sold To Be A Slave:

Sold as a Slave Olaudah Equiano, 2007-02-01 In an adventurous and extraordinary life Equiano c 1745 c 1797 criss crossed the Atlantic world from West Africa to the Caribbean to the USA to Britain either as a slave or fighting with the Royal Navy His account of his life is not only one of the great documents of the abolition movement but also a startling moving story of danger and betrayal Great Journeys allows readers to travel both around the planet and back through the centuries but also back into ideas and worlds frightening ruthless and cruel in different ways from our own Few reading experiences can begin to match that of engaging with writers who saw astounding things Great civilisations walls of ice violent and implacable jungles deserts and mountains multitudes of birds and flowers new to science Reading these books is to see the world afresh to rediscover a time when many cultures were quite strange to each other where legends and stories were treated as facts and in which so much was still to be discovered

Sold to be a Slave C. J. Inglis, 2003 Sold to be a Slave is very loosely based on the idea of the Biblical story Joseph and the Coat of Many Colors Most similarity ends when Aaron the 16 year old son of a desert chieftain is sold at a slave sale to a wealthy businessman in the city of Salaya For five years he is taught to be a slave in a new foreign society The class defined culture and his stern intolerant Master join together to try to physically and emotionally crush all personhood out of a once bright self confident desert youth

Backcountry Slave Trader Philip Noel Racine, Frances Melton Racine, 2019-11-20 Backcountry Slave Trader explores the life of William James Smith a South Carolina backcountry slave trader whose entries in his business ledger and his correspondence were of unusual specificity The authors analyze these entries and his correspondence which they argue provide details about the institutional features of the domestic slave trade not found in earlier published works The authors examine the attitude of Smith and how he conducted his business and reveal that the interior slave trade and the characterization of the slave trader are more nuanced than previously thought

Slaves of One Master Matthew S. Hopper, 2015-08-25 In this wide ranging history of the African diaspora and slavery in Arabia in the nineteenth and early twentieth centuries Matthew S Hopper examines the interconnected themes of enslavement globalization and empire and challenges previously held conventions regarding Middle Eastern slavery and British imperialism Whereas conventional historiography regards the Indian Ocean slave trade as fundamentally different from its Atlantic counterpart Hopper s study argues that both systems were influenced by global economic forces The author goes on to dispute the triumphalist antislavery narrative that attributes the end of the slave trade between East Africa and the Persian Gulf to the efforts of the British Royal Navy arguing instead that Great Britain allowed the inhuman practice to continue because it was vital to the Gulf economy and therefore vital to British interests in the region Hopper s book links the personal stories of enslaved Africans to the impersonal global commodity chains their labor enabled demonstrating how the growing demand for workers created by a global demand for Persian Gulf products compelled the enslavement of these people and their transportation to eastern Arabia His provocative and deeply

researched history fills a salient gap in the literature on the African diaspora The Progress of Slavery in the United States
George Melville Weston,1858 Presents economic arguments against slavery with the aim not only of eliminating the
institution of slavery but also of eliminating the existence of Black people in the United States The Federal Cases ,1895

value and authenticity and his later repudiation of those views reflect the profound changes regarding the understanding of
literature and its significance that occurred in the early part of the twentieth century **Africana** Anthony Appiah, Henry
Louis Gates (Jr.),2005 Ninety years after W E B Du Bois first articulated the need for the equivalent of a black Encyclopedia
Britannica Kwame Anthony Appiah and Henry Louis Gates Jr realized his vision by publishing Africana The Encyclopedia of
the African and African American Experience in 1999 This new greatly expanded edition of the original work broadens the
foundation provided by Africana Including more than one million new words Africana has been completely updated and
revised New entries on African kingdoms have been added bibliographies now accompany most articles and the encyclopedia

authoritative research and scholarly reference set on the African experience ever created More than 4 000 articles cover
prominent individuals events trends places political movements art forms business and trade religion ethnic groups
organizations and countries on both sides of the Atlantic African American history and culture in the present day United
States receive a strong emphasis but African American history and culture throughout the rest of the Americas and their
origins in African itself have an equally strong presence The articles that make up Africana cover subjects ranging from
affirmative action to zydeco and span over four million years from the earliest known hominids to Sean Diddy Combs With

Africans John Iliffe,1995-08-25 In a vast and all embracing study of Africa from the origins of mankind to the South African general election of 1994 John Iliffe refocuses African history on the peopling of an environmentally hostile continent Africans have been pioneers struggling against disease and nature and their social economic and political institutions have been designed to ensure survival and maximise numbers These institutions enabled them to survive the slave trade and colonial invasion but in the context of medical progress and other twentieth century innovations the same institutions have bred the most rapid population growth the world has ever seen This demographic growth has lain behind the collapse of colonial rule the disintegration of Apartheid and the instability of contemporary nations The history of the continent is thus a single story binding living Africans to their earliest human ancestors
