

## SOLDIERS AT THE DOORSTEP

---

### CIVIL WAR LORE

The Civil War era was a heartbreaking and emotional time for those living in the South *and* in the North. The vignettes in this collection show not only the fear, but also the courage, the defiance, and the ingenuity the people at home showed under extremely difficult circumstances.

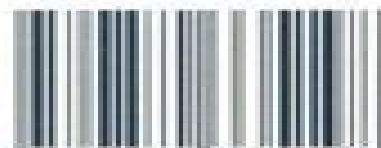

While these particular tales are southern, it is likely that the same sort of narrative could have come from people in any state where soldiers roamed. Some of the stories even involve northerners living in the South: for example, Mrs. Kelly, the wife of a Union soldier, who convinced the Yankees to give back her cow and some hens taken from her neighbors, then shared the milk and eggs with those neighbors throughout the war.

The homespun quality of these accounts makes them uncommonly affecting to the reader. It is history "as told to," an especially effective way to learn about the challenges faced by earlier generations.

**Recommendations to improve mental health care in America** United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions. Subcommittee on Substance Abuse and Mental Health Services, 2004 Free Clinics Virginia M. Brennan, 2013-05-15 Free clinics and student run clinics are an essential part of America's health care safety net. In community after community pro bono and student run health clinics have sprung up over the past 30 years providing critically needed care to medically underserved populations. Free Clinics is a mosaic formed by accounts of such clinics around the United States. These wide ranging narratives from urban to rural from primary care to behavioral health care provide examples that will assist other communities seeking to find the model that best fits their needs. The Patient Protection and Affordable Care Act has improved access to health care for many Americans but millions remain and will remain uninsured or underinsured. Free clinics provide non emergency care to those in need. Nationwide professionals can be found offering volunteer services at these clinics. Contributors to this volume typically people with personal familiarity as clinicians or area residents with the clinics they write about cover a variety of topics including a review of the literature data driven accounts of clinic usage and ethical guidelines for student run clinics. They describe the motivations of clinic staff the day to day work of a family nurse practitioner working in clinics and teaching at a university the challenges and rewards of providing health care for homeless people and more. Student run clinics are the topic of the second section in addition to providing care to a small subset of those in need student run clinics are an important venue for training future clinicians and helping the seeds of altruism with which many enter their professions to germinate. Free Clinics will be useful to policymakers students and faculty in public health and health policy programs and clinicians and students who are embarking on launching new clinics. **Agriculture Handbook**, 1979 Set includes revised editions of some issues

disappearing It engages with transitional justice themes including silence memory truth acknowledgement and apology Key issues examined include the mobilisation efforts of families of the disappeared efforts by a former non state armed group to address its legacy of violence the utility of a limited immunity mechanism to incentivise information provision and the interplay between silence and memory in the shaping of a collective societal understanding of the disappeared **U.S.**
