Michigan History ,1987 *Change and Stability in Urban Europe* Gertrud Jorgensen,Wim Ostendorf,2017-09-29 This title was first published in 2001 Significant transformations in the

spatial organization of European cities have taken place over the past two decades Social fragmentation increasingly complex systems of governance the transformation of relations to public space and the shift of work from the industrial to the communications sectors have placed increasing importance on a city's position in terms of the global network This book brings together an interdisciplinary team of European experts to discuss how these transformations have forced a radical reconsideration of the traditional definitions of the city Comparing a wide range of European cities the book highlights the diversity of urban forms and tackles the questions regarding the quality of life in new urban spaces The result is a comprehensive and incisive examination of the capacity of urban policies to evoke real changes in the city and to regenerate the systems of urban governance

Oral Performance, Popular Tradition, and Hidden Transcript in Q Richard A. Horsley, 2006 This collection of essays pursues two new approaches to Q the speeches of Jesus paralleled in the Gospels of Matthew and Luke The essays in Part One suggest that recent work in ethnopoetics the ethnography of performance and theory of verbal art especially that of John Miles Foley both complements and challenges standard approaches to the teaching of Jesus They explore how Q speeches might be appreciated as oral performance that resonates with listeners in a community context by referencing Israelite popular tradition The essays in Part Two examine how the work of anthropologist and political scientist James C Scott on popular tradition the moral economy of the peasant and hidden transcripts may illuminate the social context and political implications of Q speeches From publisher's description [A Hospitable World?](#)

David Jordhus-Lier, Anders Underthun, 2014-10-30 The hospitality and tourism sector is a large and rapidly expanding industry worldwide and can rightfully be described as a vehicle of globalisation Hotels are among the cornerstones of the industry often drawing workers from the most vulnerable segments of multicultural labour markets accommodating and entertaining tourists and business travelers from around the world This book explores the organisation of work worker identities and worker strategies in hotel workplaces as they are located in heterogeneous labour markets being changed by processes of globalisation It uses an explicitly geographical approach to understand how different groups of workers experience and respond to challenges in the hospitality industry and is based on recent theoretical debates and empirical research on hotel workplaces in cities as different as Oslo Goa London Las Vegas and Toronto A multi-scalar analysis is taken where concrete worker bodies and their physical emotional and embodied labour are seen in relation to among other aspects the regulation of national and regional labour markets city governments with global city ambitions and global corporate actors and labour migration patterns The book sheds light on the hotel workplace as a hierarchical and fragmented social space as well as addressing questions on worker mobility the fragmentation of work scales of organisation and how workers can help shape the regulation of their industry This timely volume brings together contributions from international academics and is valuable reading for all those interested in hospitality tourism human geography and globalisation

Aspirations and Anxieties David A. Zonderman, 1992 This study examines the thoughts and actions of the first generation of factory

workers in New England It explores the various ways in which the labourers handled their new experiences in the factories themselves in the surrounding towns and during strikes and political campaigns

A Fragment of a Sociological Autobiography Edward Shils, 2017-07-05 Edward Shils was one of the giants of sociological theory in the period after World War II In this autobiography written three years before his death in 1995 Shils reflects on the remarkable range of his life's work and activities including founding and editing the journal *Minerva* being a central figure in the Congress of Cultural Freedom serving as a founding member of the editorial board of *The Bulletin of Atomic Scientists* and being a member of the International Council on the Future of the University Shils recognizes that a unity of concern runs through his many theoretical writings and activities Early in his life the concern was expressed as understanding the character of consensus During the last fifteen years of his life he refined his understanding of consensus through investigation of the nature of collective self consciousness That concern was the structure and character of the moral order of a society and in particular liberal democratic society Accompanying the autobiography are two unpublished essays *Society Collective Self Consciousness* and *Collective Self Consciousness and Rational Choice* two areas of intellectual concern discussed in the autobiography The book contains fascinating discussion of many of the people Shils knew throughout his illustrious career Robert Park Louis Wirth Talcott Parsons Karl Mannheim Michael Polanyi Audrey Richards Karl Popper Robert Merton and many others They represent Shils' final formulations on the character of society and its moral order As such it is a most important contribution both to the history of the social sciences in the twentieth century and to sociological theory

Poland's Transformation Bjorn Kurten, 2017-07-12 Poland has carried out two peaceful revolutions in the span of one generation first the self limiting movement of Solidarity which undermined the legitimacy of Communism and then a negotiated transfer of power from Communism to free market democracy Today while Poland is seen as a success story and is joining political and economic associations in the democratic West Poles themselves seem downcast They ask is social anomie a price worth paying for a successful transformation In making moral compromises with an outgoing tyranny can one avoid cynicism and disappointment with democracy Zbigniew Brzezinski professor of American Foreign Policy at Johns Hopkins University has called Polish Transformation a work that provides a comprehensive as well as incisive overview of the extraordinary difficult and historically unprecedented process of transforming an increasingly corrupt and decayed totalitarian system into a modern democracy John Lenczowski director of the Institute of World Politics adds that this extremely useful volume explains the essential elements of the post communist political transition in Poland Its authors convey the cultural and ideological underpinnings that can be captured only by authorities who have developed over a lifetime that special sixth sense for detecting the elusive and unquantifiable soul of a country Radek Sikorski the executive director of the New Atlantic Initiative at the American Enterprise Institute writes that we should be grateful to the authors and editors of this thoughtful volume for asking questions which remain relevant for that uncomfortably large part of humanity that still lives under totalitarian or authoritarian regimes

Theology in Motion Aimee Allison Hein, 2024-11-19 Christian responses to global migration are as loud as they are numerous With voices evoking either the injunction to love the stranger or a commitment to the rule of law this polarized cacophony has become yet another theater in the culture war But migration is not an idea It is not an abstraction Migration is about people present in our midst or encountered at our edges Their presence at our borders forces us to consider the core values we want most to uphold and the stories that taught us those values in the first place In the United States our most popular origin stories tell of a nation that fought off tyranny and committed itself to liberty democracy and the dream of an unencumbered pursuit of happiness of a life lived on one's own terms But is this the whole story Whose perspectives have shaped the stories we tell

and which perspectives have been ignored Theology in Motion tracks the story of the United States how it formed and how it came to dominate the land that now rests between its borders to consider more fully what type of nation the US has been and the type of global neighbor it has chosen to be From a Christian moral perspective this history helps us look to the future by analyzing how our past choices have left us with present responsibilities Taking these responsibilities seriously and pursuing more just global relationships provides a way forward in which all people might participate and to which Christians are called

NONVIOLENCE OR NONEXISTENCE Witness of a Body in the Body of the World LeRoy Moore, 2022-08-30 The summary of this book is present in the title Nonviolence or Nonexistence I grew up knowing closely the violence of my father He was violent with me and also with my stepmother after my mother s early death As a boy I thought this was the life for men I was living a lie But I soon learned about nonviolence from Martin Luther King and with much more detail from Mohandas Gandhi of India Later I read the works of Gene Sharp of Harvard who emphasized strongly that we must abandon violence Early in my adult years I became a devotee of nonviolence especially after I learned that nuclear weapons were manufactured at the Rocky Flats Plant near Boulder Colorado where I lived Achieving closure of Rocky Flats was a major accomplishment for devotees of nonviolence In words I used as a visiting professor at the University of Denver I am a body in the body of the world Drawing on a lifetime s experience of nonviolent thought and activism this book emphasizes that to survive we must end our devotion to violence

Identity and Dependence Pasquale De Marco, 2025-07-17 In an era defined by victimhood and dependence Identity and Dependence offers a fresh perspective on the complex relationship between identity power and freedom Drawing inspiration from Wendy Brown s seminal work States of Injury this book delves into the ways in which a sense of woundedness can shape our identities and lead to a reliance on external protection and regulation While recognizing the importance of addressing social injustices and protecting vulnerable populations Identity and Dependence argues that the emphasis on victimhood and the associated demand for protection have inadvertently strengthened the power of the state and other institutions This has created a culture of dependence and diminished individual responsibility ultimately undermining the very freedoms we seek to protect The book also examines the unintended consequences of identity politics which while bringing about positive changes have also contributed to the fragmentation of society along identity lines This fragmentation makes it increasingly difficult to build bridges and forge a sense of common purpose hindering our ability to address complex social issues effectively Identity and Dependence calls for a critical examination of the power dynamics at play and a reimagining of our social and political systems It argues that the path to a more just and equitable society lies not in further entrenching victimhood and dependence but in empowering individuals and fostering a culture of freedom and autonomy This book is a timely and thought provoking exploration of the challenges and opportunities of our current era It offers a roadmap for creating a world where we are no longer defined by our wounds but by our resilience our capacity for growth and our unwavering commitment to building a better future for all Identity and Dependence is essential reading for

anyone seeking a deeper understanding of the complex interplay between identity power and freedom in the 21st century It is a call to action for a society that values individual liberty shared responsibility and the pursuit of happiness If you like this book write a review

The Space of the Transnational Shirin E. Edwin, 2021-12-01 This book examines Muslim women's creative strategies of deploying religious concepts such as ummah or community to solve problems of domestic and communal violence polygamous abuse sterility and heteronormativity By closely reading and examining examples of ummah building strategies in interfaith dialogues exchanges and encounters between Muslim and non Muslim women in a selection of African and Southeast Asian fictions and essays this book highlights women's assertive activism to redefine transnationalism understood as relationships across national boundaries as transgeography Ummah building strategies shift the space of or respatialize transnational relationships focusing on connections between communities groups and affiliations within the same nation Such a respatialization also enables a more equitable and inclusive remediation of the citizenship of gendered and religious citizens to the nation state and the transnational sphere of relationships

Peace by Peaceful Means Johan Galtung, 1996-04-16 Johan Galtung one of the founders of modern peace studies provides a wide ranging panorama of the ideas theories and assumptions on which the study of peace is based The book is organized in four parts each examining the one of the four major theoretical approaches to peace The first part covers peace theory exploring the epistemological assumptions of peace In Part Two conflict theory is examined with an exploration of nonviolent and creative handling of conflict Developmental theory is discussed in Part Three exploring structural violence particularly in the economic field together with a consideration of the ways of overcoming that violence The fourth part is devoted to civilization theory This involves an exploration of cultural violence focusing on the deeper aspects of cultures Finally the threads of these four approaches are drawn together with a focus on peace action peace by peaceful means

Toward an Other Globalization: From the Single Thought to Universal Conscience Milton Santos, 2017-05-11 This book presents an alternative theory of globalization that derives not from the dominant perspective of the West from which this process emerged but from the critical vantage point of the Third World which has borne the heaviest burdens of globalization It offers a critical and uniquely first hand perspective that is lacking not only from the apologists of Western hegemony but from most scholars writing against this hegemony from within the globalizing world Renowned throughout Latin America and parts of Europe the author Brazilian geographer Milton Santos has long been for the most part inaccessible to the English speaking world Only one of his books *The Shared Space: The Two Circuits of the Urban Economy in Underdeveloped Countries* published in 1975 has been translated into English nevertheless the works of Santos's most important phase from the 1980s until his death in 2001 have remained unavailable to English readers With the translation of *Toward an Other Globalization* one of the last works published in Santos's lifetime this situation has finally been rectified In this book Santos argues that we must consider globalization in three different senses globalization as a fable the world as globalizing agents

make us believe as perversity the world as it is presently in the throes of globalization and as possibility the world as it could be What emerges from the analysis of these three senses is an alternative theory of globalization rooted in the perspective of the so called Global South Santos concludes his text with a message that is optimistic but in no way naive What he offers instead is a revolutionary optimism and indeed an other globalization
