**The Reception of Husserlian Phenomenology in North America** Michela Beatrice Ferri, 2019-06-05 This book presents a historiographical and theoretical analysis of how Husserlian Phenomenology arrived and developed in North America The chapters analyze the different phases of the reception of Edmund Husserl's thought in the USA and Canada The volume discusses the authors and universities that played a fundamental role in promoting Husserlian Phenomenology and clarifies their connection with American Philosophy Pragmatism and with Analytic Philosophy Starting from the analysis of how the first American Scholars of Edmund Husserl's thought opened the door to the reception of his texts the book explores the first encounters between Pragmatism and Husserlian Phenomenology in American Universities The study focuses then on those Scholars who fled from Europe to America from 1933 onwards to escape Nazism Felix Kaufmann Alfred Schutz Aron Gurwitsch Herbert Spiegelberg Fritz Kaufmann among the most notable and illustrates how their teaching provided the very basis for the spreading of Husserlian Phenomenology in North America The volume examines then the action of the 20th Century North American Husserl Scholars together with those places societies centers and journals specifically created to represent the development of the studies devoted to Husserlian Phenomenology in the U S with a focus of the Regional Phenomenological Schools Selected papers on Renaissance philosophy and on Thomas Hobbes Karl

Spiegelberg, 2013-03-11 Die Veröffentlichung eines Buchmanuskripts rund fünfzig Jahre nach seinem Abschluß bedarf einer Erklärung und Rechtfertigung Die Erklärung ist vor allem autobiographisch Als im Jahr 1935 meine systematischen und historischen Vorstudien zu einer gesetzesfreien Ethik unter dem Haupttitel Gesetz und Sittengesetz im Max Niehans Verlag in Zürich erschienen plante ich ihnen alsbald die darin versprochene Ausführung meines Programms einer gesetzesfreien Ethik und Philosophie der ethischen Rechte und Pflichten folgen zu lassen Denn von Anfang an war das Endziel meiner damaligen philosophischen Bemühungen eine systematische Erneuerung der Grundlagen der praktischen Philosophie in phänomenologischer Sicht welche die berechtigten und unentbehrlichen Prinzipien des Naturrechts wertphilosophisch fundieren konnte Nachdem ich im Jahr 1934 die Hoffnung auf eine Habilitation in Europa aus politischen Gründen aufgeben mußte arbeitete ich in den folgenden Jahren zunächst an der Durchführung dieses Plans den ich im Jahr 1937 während eines

Studienaufenthalts in England in Vorbereitung meiner Übersiedlung in die Vereinigten Staaten zum Abschluß brachte wobei ich zugleich Einsichten der britischen Moralphilosophie einzuarbeiten suchte Als ich indes Anfang 1938 das neue Manuskript meinem Züricher Verleger vorlegte war es ihm nicht länger möglich die Verbreitung eines solchen Textes eines nicht reinrassigen Autors im deutschen Sprachgebiet zu versuchen Für eine englische Veröffentlichung in Amerika war der Boden für mich als Neuankömmling noch nicht reif Hier mußte ich mir erst durch allgemeine phänomenologische Aufsätze und vor allem durch historische Einführungen eine Basis für eine neue philosophische Existenz schaffen **Phenomenological**

**Existential Husserl** Marco Cavallaro, George Heffernan, 2022-10-25 This book examines Husserl's approach to the question concerning meaning in life and demonstrates that his philosophy includes a phenomenology of existence Given his critique of the fashionable philosophy of existence of the late 1920s and early 1930s one might think that Husserl posited an opposition between transcendental phenomenology and existential philosophy as well as that in this respect he differed from existential phenomenologists after him But texts composed between 1908 and 1937 and recently published in Husserliana XLII Grenzprobleme der Ph nomenologie 2014 show that the existential Husserl was not opposed but open to the phenomenological investigation of several basic topics of a philosophy of existence A collection of contributions from a team of internationally recognized scholars drawing on these and other sources the present volume offers insights into the relationship between phenomenology and philosophy of existence It does so by 1 delineating the basic outlines of Husserl's phenomenology of existence 2 reinterpreting the tension between Husserl's transcendental phenomenology and Jaspers's and Heidegger's philosophy of existence as well as Kierkegaard's and Sartre's existentialism and 3 investigating the existential aspects of Husserl's phenomenological ethics Thus focusing on neglected aspects of Husserl's thought the volume shows that there is a consensus between classical phenomenology and existential phenomenology on the urgency of addressing the existential questions that in The Crisis of the European Sciences and Transcendental Phenomenology 1936 Husserl calls the questions concerning the meaning or meaninglessness of this entire human existence The Existential Husserl represents a major contribution to the clarification of the historical and philosophical developments from transcendental phenomenology to existential phenomenology The book should appeal to a wide audience of many readers at all levels looking for phenomenological answers to existential questions **Karl Schuhmann, Selected papers on**

The Gift of Bonds Roberta de Monticelli, 2024-08-01 This book presents the idea of the gift of bonds as the core intuition of phenomenology constituting it into that method of philosophical research that Husserl had in mind when he characterized phenomenology as the culmination and fulfillment of Western philosophy The book clarifies this claim while offering a unitary key to the whole of Husserl's published and posthumous work The idea of the gift of bonds unfolds progressively as a key to understanding the

related notions of essence material apriori non empirical data structure ideality and value By unveiling the unitary foundation the key concept discussed in the Third Logical Investigation the present book presents this central notion as capturing the very idea of concreteness as experienced and phenomenologically described in terms of qualitative plena and the not less important class of ideal or abstract objects The author takes this concept to be the core theoretical idea of the entire phenomenological approach to reality and philosophical research and argues for this claim in chapters IV V as it remains a leading thread throughout all chapters of this book This book appeals to students and researchers working in phenomenology

**The Far Reaches** Michael D Gubser, 2023-05-25 By restoring morality to phenomenology and phenomenology to East European politics Gubser has rewritten the intellectual history of the twentieth century Samuel Moyn author of *Liberalism Against Itself* When future historians chronicle the twentieth century they will see phenomenology as one of the preeminent social and ethical philosophies of its age The phenomenological movement not only produced systematic reflection on common moral concerns such as distinguishing right from wrong and explaining the status of values it also called on philosophy to renew European societies facing crisis an aim that inspired thinkers in interwar Europe as well as later communist bloc dissidents Despite this legacy phenomenology continues to be largely discounted as esoteric and solipsistic the last gasp of a Cartesian dream to base knowledge on the isolated rational mind Intellectual histories tend to cite Husserl's epistemological influence on philosophies like existentialism and deconstruction without considering his social or ethical imprint And while a few recent scholars have begun to note phenomenology's wider ethical resonance especially in French social thought its image as stubbornly academic continues to hold sway *The Far Reaches* challenges that image by tracing the first history of phenomenological ethics and social thought in Central Europe from its founders Franz Brentano and Edmund Husserl through its reception in East Central Europe by dissident thinkers such as Jan Patocka Karol Wojtyła Pope John Paul II and Václav Havel In his fascinating and elegantly written book Michael Gubser leads us away from intellectual history's traditional stomping grounds in France Germany and the United States and focuses on the understudied Eastern bloc Edward Baring *Modern Intellectual History*

**La dignità umana dopo la "Carta di Nizza". Un'analisi concettuale** Barbara Malvestiti, 2015-09-10. Nel pieno del dibattito politico giuridico sullo statuto dell'Unione Europea sul tipo di entità che vuole essere e sul tipo di valori su cui intende fondarsi, diviene attuale il rilancio dello studio della Carta di Nizza, la Carta dei Diritti fondamentali dell'Unione Europea proclamata a Nizza nel 2001 ed entrata in vigore con il Trattato di Lisbona nel 2009. In particolare, diviene fondamentale lo studio del primo valore su cui la Carta dei Diritti Fondamentali, parte integrante della Costituzione europea, si fonda: il valore della dignità umana. Il libro svolge un'analisi concettuale di questo principio di valore con la lucidità e il rigore che una disamina a distanza, un'analisi dopo la Carta di Nizza, rende possibili. Il suo contributo: nuovo un'indagine di tutte le trame e le gerarchie possibili che il valore della dignità umana intrattiene con gli altri valori informanti; gli ordinamenti giuridici scandagliando diverse posizioni in gioco ma avanzando anche una proposta. A fondamento dell'ordinamento giuridico europeo, l'autrice propone una concezione della dignità umana come norma suprema, non bilanciabile dal contenuto minimo che amplia la concezione kantiana di dignità umana. Tale ampliamento va nella direzione di un ripensamento della dignità umana in chiave fenomenologica, che diversamente da più diffuse posizioni giusnaturalistiche non rinuncia all'autonomia dell'individuo. Tra le fonti d'ispirazione dell'autrice si annoverano, fra gli altri, il pensiero di Jeanne Hersch, filosofa del '900, connessa in maniera significativa alla Dichiarazione Universale dei Diritti dell'uomo del 1948, di cui rinvenne la radice in un'esigenza assoluta, nonché il pensiero di Max Scheler, filosofo per eccellenza dell'individualità essenziale.
