Color Meditation
 Kees Veenman,2024-04-23 Is there also such a thing as the essence of color For me the essence is the spiritual aspect that lives in color Making this spiritual aspect accessible is the purpose of this book Kees Veenman We are all familiar with the world of color but can we learn to experience color more intensely Can we learn to penetrate colors in a more profound way This book takes the reader into the activity of the colors of the spectrum by investigating them meditatively The author explains aspects of color phenomenology and prepares the reader for color meditations including some that he has incorporated into his own personal practices Kees Veenman a phenomenologist who specializes in colors begins by observing the spring gold and the autumn gold of trees before introducing the phenomenological method whereby his research connects with Goethe s theory of color and that of Rudolf Steiner Using numerous examples and experiments Veenman guides the reader toward the dynamics and essence of colors describing his research into the nature of colors along with

fresh questions that help us penetrate the world of colors ever more deeply The author also considers light therapy and the relationship of colors to the seasons as well as to fairytales The reader is encouraged to meditate with and in colors to discover and experience among other things consciousness of Christ All of this is presented with clear descriptions supplemented with color images Color Meditation is for those who want to appreciate the phenomena and wonders the being of color more deeply and fully understand how color can enrich one s soul and spiritual activity The correspondence between the emergence and effect of a color outside us and the appearance within us is found in the polarity between light and darkness Light is a symbol of clear day consciousness whereas darkness represents the impenetrability of the will Here we come to the intimate relationship between the world of colors and that of human consciousness with its active and passive side Christine Gruwez foreword Translated by Laura Liska from Kleurmeditatie Uitgeverij Pentagon Amsterdam 2015 Cover image by Beppe Assenza 1905 1985 Eklipse watercolor 23 5 x 20 5 in

William Lawrence and the Organ of Mind Elfed Huw Price, 2025-03-04 William Lawrence and the Organ of Mind explores the historical origins and ideological valence of the conceptualisation of thought and mind as functions of the brain in early nineteenth century Britain Taking as its starting point the controversy provoked by Lawrence s Lectures on Physiology Zoology and the Natural History of Man the book draws on archival and published texts as well as images to reveal overlooked parallels and connections with the concurrent rise of phrenology and the longstanding Christian mortalist tradition It shows how the sentient brain served as a radical icon marking a break with ancient Galenic medical models and Athanasian religious dogma and charts how in part through Lawrence s contributions it was united with a biological vision that identified human exceptionality more directly with the structure and function of our brains Elfed Huw Price s work indicates that although Lawrence was silenced his Lectures lived on a contributor to the rising tide of Victorian naturalism and part of a wider transformation of beliefs and values that swept aside the ancient politico religious structures of the Confessional State leaving the cerebral organ standing alongside the soul as the source of human reason and a distinguishing feature of humanity

Experiencing the Last Judgement Niamh Bhalla, 2021-09-30 Experiencing the Last Judgement opens up new ways of understanding a Byzantine image type that has hitherto been considered largely uniform in its manifestations and to a great extent frightening coercive and paralysing It moves beyond a purely didactic understanding of the Byzantine image of the Last Judgement as a visual eschatological text to be read and learned from and proposes instead an appreciation of each unique image as a dynamic site to be experienced Paintings icons and mosaics from the tenth to the fourteenth century from inside and outside of the Byzantine Empire are placed within their specific socio historical milieus their immediate decorative programmes and their architectural contexts to demonstrate that each unique image constituted a carefully orchestrated and immersive experience of judgement Each case study outlines the differences that exist in reality between these images that are often subsumed under one iconographic label making a case against condensing dynamic lived images into apparently static pictorial types Images of

the Last Judgement needed the body mind and memory of the viewer for the creation of meaning and so the experience of these images was unavoidably spatial gendered corporeal mnemonic emotional rhetorical and most often liturgical Unpacking Byzantine images of judgement in light of these various facets of experience for the first time helps to elucidate the interaction of past individuals with the image and the ways in which such encounters were intended to benefit the communities that made and lived alongside them The Solitary Druid Robert Lee Ellison, 2005 Druidry is primarily a reconstructed ethnic religion derived from what is known about the beliefs of the ancient Celts Those who follow it may be drawing on anthropology folklore archaeology history and even academic research others may hear the Druidic Call to celebrate Earth and Sky but may not know where to learn more These are the seekers whom The Solitary Druid is dedicated to An essential first step in Paganism and a necessary one for those new to the Druid s path focusing on the core teachings of modern Druidry
