Gabonada,Titar-Improgo, Cecille Marie,Gutierrez, Merry Ruth Morauda,2024-04-09 The underappreciation of the pivotal roles played by home school and community in shaping the literacy journey of individuals While the mantra Literacy begins at home resonates it often remains a mere platitude rather than a transformative force The synergy between these three pillars is essential yet gaps persist hindering the development of a truly literate society As children tread the academic path the home lays the foundation and schools amplify these efforts However the holistic nature of learning encompassing life experiences demands a collaborative approach from families educators and communities This is the crux of the problem a disjointed system that impedes the seamless development of literacy across diverse backgrounds Improving Literacy Through Home School and Community Partnerships is a groundbreaking book that unravels the complexities of this challenge and illuminates the transformative potential within collaborative efforts By delving into the dynamic interplay between home school and community the book offers a roadmap to bridge existing gaps and forge a path toward a more literate society Early career researchers will find this a valuable resource to identify and address these gaps while families educators community leaders and policymakers will gain invaluable perspectives to inform their practices policies and research initiatives
