**Sport Psychology for Coaches** Damon Burton, Thomas D. Raedeke, 2008 This book presents an applied approach to sport psychology and is designed to enable coaches and students to understand key sport psychology tools. It provides coaches with a practical discussion of motivation, communication, stress management, mental imagery and other important topics. It is a reader friendly organisation that includes learning objectives that introduce each chapter, sidebars illustrating sport specific applications of key concepts and principles and chapter summaries.

**Applied Sport Psychology** Brian Hemmings, Tim Holder, 2013-09-09 Taking a refreshingly different approach to the subject this new textbook uses original case studies of psychological support work with individual athletes and groups to illustrate the underlying theory and inform the reader of cutting edge practice in the field. It addresses real world issues and helps the student understand the problems and challenges that the sport psychologist faces and is employed to resolve. The book begins by exploring the use of case studies as a professional method for disseminating applied knowledge and practice in sport psychology. The remaining chapters constitute the core of the book, the case studies themselves. Each case study demonstrates scientific rigour in reporting the background information, initial assessment, intervention and monitoring evaluation of the intervention and also considers consultant effectiveness through reflective practice. The chapters also contain summaries and an accompanying set of questions for students. Written by a team of experienced practitioners this book shows how sport psychology actually works in practice. As such it will prove invaluable to students of sport psychology in both sport and exercise science and psychology programmes. It will also be an extremely useful resource for coaches and sports professionals undergoing training in sport psychology.

**Applied Sport Psychology** Jean Marie Williams, Vikki Krane, 2020-02 The same important topics focus and organizational structure have been retained for this eighth edition but the revision reflects the latest research, practice and anecdotal examples in applied sport psychology. In this edition we have added a new chapter on mindfulness. We also have taken new approaches to several of the topics. The coverage of building confidence and controlling concentration has been updated and extended. The chapter on doping previously referred to as drug abuse integrates new conceptualizations on this topic. The chapter on athletes career transitions reflects more contemporary theoretical approaches to understanding shifts in athletes focus and experiences during sport careers as well as strategies to assist athletes going through transition periods. A new approach also has been taken in the coverage of exercise psychology reflecting an identity approach to understanding exercise behaviors. All of the chapters have updated reference lists and integrate the most recent research into the discussion of each topic. Also throughout all of the chapters new exercises and case studies have been added to help students think more critically about applied sport psychology and to apply the content to real world situations. Current examples have been added to all chapters as well as additional discussion of practical

applications reflecting today's coaches and athletes Connect provides additional resources for instructors and has been updated coinciding with the eighth edition of the book Visit Connect to find helpful materials such as a test bank of questions PowerPoint presentations student learning experiences and audiovisual aids The student learning experiences and audiovisual aids can assist instructors in bringing the content to life and applying it to real life situations In all the same important topics focus and organizational structure have been retained for this eighth edition but the revision reflects the latest research practice and anecdotal examples in applied sport psychology Throughout the chapters new exercises learning activities and case studies will help students think more critically and apply the content to real world situations
