

The background of the cover is a dark, high-contrast photograph. At the top, a soccer ball with white and blue panels is suspended in the air, slightly out of focus. Below it, the back of a player's head and neck are visible, looking up towards the ball. The player is wearing a white jersey with blue trim. The overall mood is one of intense focus and athletic pursuit.

The Ethics of Performance Enhancing Drugs in Sports Sandra A. McCalla, 2024-08-06 It may be a popular opinion that sports and ethics are incongruent or contradictory but ethical principles in sports are in fact integral for its protection Because of this invalid popular opinion a new conversation on ethical principles and issues in sports is warranted This should start here with a philosophical investigation into the areas of epistemology and

autonomy with an effort to address ethical issues associated with the use of performance enhancement drugs doping in sports fair play equity and responsibility Readers are introduced to a new theoretical approach to addressing ethical issues in sports These issues are based on arguments advanced on responsible freedom perspective knowledge and duties that can be utilized by sports stakeholders athletes team doctors fans sporting organizations coaches etc as they strive for success and minimize unfair practices Important questions are posed concerning respect for others respect for rules respect for the game and respect for self Also an investigation into ethics and doping is conducted to unravel whether doping athletes impose undue limitations on their freedom Thus the idea of absolute freedom is questioned and privileged freedom is explored
