Thus there has been a change in the nature of the politics of sport since the end of the Cold War the subject must be rewritten to acknowledge a twenty first century world in which international sporting organisations and transnational corporations have become far more important than states. The Global Politics of Sport presents a range of essays examining the emerging global political issues in twenty first century sport including The role and power of organisations such as FIFA and the IOC The influence of US exceptionalism The construction of global sports heroes Tensions developing within traditionally alternative sports in a global commercial culture. The Global Politics of Sport presents new and fresh exploration of different conceptions of sport as a purely commercial activity and as an activity as embodying higher social and ethical values. *United States Cumulative Book Auction Records*, 1941 **Events & Tourism Essentials** Lynn Van der Wagen, 2015-05-20 Events and Tourism Essentials allows for completion of dual qualifications in Certificate III in Tourism and Certificate III in Events.
