archive and the renewed interest in the study of archives through the psychoanalysis of Jacques Derrida He moves on to explore the ambivalent nature of fire employing the conflicting philosophies of Gaston Bachelard and Henri Bergson to do so before discussing architectural conservation and the relationship between listed buildings the function of archives and the preservation of memories from the past The following chapter investigates how architecture evolves by absorbing and accommodating fire while the penultimate chapter examines the critical moment of architectural evolution the destruction of buildings by fire with a focus on the tragic disaster at London's Grenfell Tower in 2017 Zografos concludes with thoughts on Freud's drive theory He argues the practice of architectural conservation is an expression of the life drive and a simultaneous repression of the death drive which suggests controlled destruction should be an integral part of the conservation agenda Architecture and Fire is founded in new interdisciplinary research navigating across the boundaries of architecture conservation archival theory classical mythology evolutionary theory thermodynamics philosophy and psychoanalysis It will be of interest to readers working in and around these disciplines **The Other Within Us** Marilyn Pearsall, 2018-03-09 Feminist women bequeath to us a powerful critique of our society's obsession with beauty and impossible body ideals Having refused makeup high heels and short skirts in their youth these women are now entering the most stigmatized stage in a woman's life old age As she becomes the older woman the feminist's rejection of beauty standards and her ability to locate self worth is being challenged How will feminists respond to the issues raised in this phase of their lives By confronting the issues unique to older women in our culture and society these authors redress the neglect and isolation experienced within contemporary feminism and gerontology Ultimately the goal of the book is to inspire the aging woman to more easily embrace the older other within her *The Handbook of Jungian Psychology* Renos K.
